22.03.2021 World Water Day

World Water Day

22.03.2021

**\*\*INVITATION\*\***

**Celebration of World Water Day 2021 – Valuing Water**

The World Water Day celebrates water and raises awareness of the global water crisis, and a core focus of the observance is to support the achievement of Sustainable Development Goal (SDG) 6: water and sanitation for all by 2030.

The theme of World Water Day 2021 is valuing water. The value of water is about much more than its price – water has enormous and complex value for our households, food, culture, health, education, economics and the integrity of our natural environment. Water is complex because it is linked to almost everything in the world. But complexity should not hinder understanding: Water is a precondition for human existence and for the sustainability of the planet.

In this context Department of Botany and NSS Unit (S) of MKR GDC Devarakonda is organizing a **Webinar** on 22 March 2021.at 10.30 AM.

**Resource Person: Dr. Seshikala, Asst. Professor of Environmental Sciences, Osmania University, Hyderabad.**
