

To,
The Principal,
Government City College (A),
Hyderabad,

28/10/21

Respected Sir,

Sub: Request to permit Botany Students visit to Earth Center CGR
Anmaspalli, Ranga Reddy District on 01/11/2021-Reg

It is submitted that as per the resolutions of National Seminar conducted by department of Botany on 01/10/2021, titled "IPCC Report 2021- a Code Red for Humanity on Climate Emergency", a student visit is planned to CGR Earth Center in the month of November to get practical exposure on the issue at ground level.

It is further submitted that Dr.D.Nagaraju, faculty member from the department will be the coordinator and look after the students throughout the visit.

Hence I request you to permit the students to visit CGR on 01/11/2021.

Thanking you sir,

Yours Sincerely,

Dr. K.L.V. Varaprasada Rao,
In charge
Department of Botany

Respected Sir

Sub: Conference of People on Climate Change _ Invitation for visit to earth center and participation in the event -Reg.

Council for Green Revolution (CGR), environmental organization is organizing a Conference of People on Climate Change from 31st October to 12th November 2021 at Earth Center, Anmaspally. This event is being organized in collaboration with prominent organizations and institutions. This programme synchronizes with United Nation's COP-26 summit at Glasgow, Scotland. Conference of People keenly observes the course and decisions at COP 26 at Glasgow and articulates and disseminates its critical perspectives. Conference of People keenly observes the course and decisions at Glasgow and disseminates its critical perspectives. It is an occasion to create massive awareness, to bring people together to inspire climate action. The programme is being organized in partnership with prominent originations and institutions.

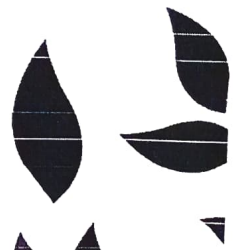

A diverse group of people are converging at The Earth Center to bring focus on the climate emergency and to give a resonating call for climate security. Environmentalists, policy experts, researchers, students, academicians, civil society organizations, educational institutions, media representatives and others are taking part in this programme.

In this regard, we invite the participation of your esteemed institution in this megacclimate and environmental programme. We wish to invite all your students and faculty to earth center, a physical visit to directly take part in the programme and to have introduction to the center. A conference brochure and thematic events will be shared shortly. We look forward for you to send your delegation in the conference.

Respected Sir,

Sub: Presenting Eastern Ghats Environment Outlook Publication to your esteemed institution-Request-reg.

Greens' Alliance for Conservation of Eastern Ghats (GrACE) was initiated by Council for Green Revolution (CGR), environmental organization, on 5th June 2011 at Srishailam, in Nallamalais in Andhra Pradesh with an aim to provide an ideal platform for a national level conservation mission for Eastern Ghats.

Eastern Ghats is a discontinuous range of mountains on the east coast of India is an important physiographic entity with immense bio-geographic, environmental, socio-economic, cultural and spiritual significance. The ecosystems in Eastern Ghats are fragile, due to fragmented distribution and heavy anthropogenic pressure. Several movements, academic and scientific publications have brought the Western Ghats and Himalayas into limelight for conservation. Similar efforts are yet to put in place to revive the pristine glory of the Eastern Ghats.

To build awareness among youth, intellectuals, academicians, public representatives and other people, GrACE & CGR have organized several workshops, seminars, conventions and conferences in the five Eastern Ghats States. A regional convention was organized at Andhra University (Vishakhapatnam) on 19 November 2011

As a part of its agenda to bring massive awareness and move further, the GrACE has brought out 'Eastern Ghats Environment Outlook' by incorporating the knowledge and insights generated from Nine years of work and cumulative experiences of many experts associated with the organization. The publication was released by Shri Pranab Mukherjee, former President on 15th October 2019 at New Delhi. Subsequently the book was released at Hyderabad by Shri Jairam Ramesh, Parliamentary Standing Committee Chairman on Environment and Science.

We hope that the publication will help in drawing the attention of policy makers, sensitizing all the concerned citizens and framing an appropriate sustainable environmental governance paradigm for Eastern Ghats. We also request you bring the importance and plight of Eastern Ghats environment through news/stories etc.

Having regard to you as one of the esteemed higher education institutions, and leading light of knowledge, it's our pride to share this publication for the benefit of researchers, environmentalists, conservationists and all concerned citizens working on Eastern Ghats. The book published with ISBN and we request you to catalogue and add into your main knowledge repository (Library).

Thanking You,

R. Dileep Reddy,
Chairman-GRACE

K. Leela Laxma Reddy
President, GGR
