

## GOVERNMENT DEGREE COLLEGE, MANCHERIAL, DIST: MANCHERIAL

### BEST PRACTICE

**Extending our academic expertise to the student community:**

**Objectives:**

- (1) To enhance their subject knowledge of the students to go for their higher studies.
- (2) To help the students to prepare for their competitive exams,

**Aim of this practice:** The faculty has the social responsibility to enlighten the society in their concerned subject area. It is meant a kind of giving back to the society.

**Context:** The faculty of this institution has observed some gaps in the learning of the Intermediate students as the responsible faculty of the higher education. The faculty of this institution divided into four groups to visit the Government Junior Colleges as per the allotted route maps by the Head of the Institution. The fuel charges were shared by that group. The faculty visited the GJCs to provide not only the extended academic knowledge but also some useful tips to attend their year-end examinations, guidance related to their higher education and competitive exams.

**Success of the Program:** This voluntary help from our teaching staff magically resulted in the improvement of admissions from Government Junior college those we visited. The association between the visited Government Junior colleges and this institution has improved significantly.
