## Relevance of the topic

Vocabulary plays a vital role in language learning or spoken English. No one can speak language, without knowing proper vocabulary. Initially everyone should acquire sufficient word power, before going to speak. Basic vocabulary is necessary to speak English language at various places i.e. grocery shop, vegetable market, supermarket railway ticket booking counter etc.

To improve word power, everyone must learn even a single word a day. English news paper reading is very helpful to improve word power. Many successful persons opined that ~~Reading English newspaper~~ *is caused* ~~their~~ success. The teacher should be facilitator while learning vocabulary. Practical learning experience affect more than class room learning.

English is a global language. A good vocabulary helps to develop comprehension skill and master a language. Recent research proves that average people have about 10,000 words in their speaking vocabulary. Writing vocabulary refers to the words that use writing your ideas or thoughts. One of the best ways building a strong vocabulary is to explore the variations of a single word.

---

## Objectives :

1. To improve spelling skills
2. To help students to understand how letter symbols relate *Sounds*
3. To know how the formation of words
4. To help in spoken English
5. To know how pronouns the words
6. To enhance the skill of learning synonyms

## Methodology :

- Quantitative research Methodology
- Qualitative research Methodology
- Survey Method
- Working Vocabulary
- Common Words
- Working Vocabulary –will be collected from target group-with help of Feedback form and oral questions
- Target Group :- consumers at vegetable market, tiffin centre, grocery store, bus stop, bank etc.
- A team comprising 6 students- conduct the survey

## Findings & Analysis

Findings based on feedback collected from target group. Target group comprises vegetable market, grocery shop, tiffin centre, bus stop, bank etc. The purpose of survey is to analysis how many people able to understand and speak English in Bellampally town.

The questionnaire /feedback form contains different kinds of questions on vocabulary. We observe that some use English words daily, but they do not know spellings of those words, some did not identify silent letters in English words. We thought that it is occurred lack of practice. Some are unable to say correct spellings of given words. Some of them should excellent / awesome performance in spellings. Most of in the target group answered for opposite words. But they do not know the word Antonyms.

In the pronunciation, we asked how many accents are there in English language. But they do not have any idea about Britian, American and Indian accents. Most of them uttered the given words in Indian accents i.e. telugu language means tried to pronounce unnecessarily stressed and stretched the words like the words of telugu language. Half of the target group answered synonyms correctly. Internet, social media electronic and print media provide opportunities. There is need to learn sufficient vocabulary.

Conclusion :

Vocabulary should be taught through games, charts, placards etc. word building is very important in language speaking. One should achieve fluency, whenever they practice daily. if one use opt words in their speech or writing, we can say that he succeeded

Suggestions :

- ❖ Students should be encouraged to use English from familiar situations.
- ❖ Teacher should provide supportive or encouraging atmosphere.
- ❖ The habit of news paper reading should help to learn new words in English language.
