Awareness Programme on Health and Hygiene

Report

**Introduction**

Health and hygiene is very important for production participation of students in learning and skill building. Unfortunately, awareness is low on these aspects, even while there are barriers to achieving health and hygiene. Girls especially are vulnerable because of biological and socio-economic norms and social norm-dominated norms.

Healthy food, safe food practices, menstrual health management and access to nutritious food constitute factors that promote health and hygiene. Focussing on nutrition, this college undertook an awareness programme on health and hygiene.

**Programme**

We organized an awareness programme on health and hygiene, as a part of activities of Women Empowerment Cell, at ABV Government Degree College, Jangaon, Jangaon District.

This programme was organized using internal college funds. There were more than 100 participants, including students and faculty from the college.

This programme began with initial remarks by Coordinator, Women Empowerment Cell, Dr. D. Pushpa, who is Assistant Professor of Mathematics, ABV Government Degree College, Jangaon. She elaborated on the objectives of the programme. Sri. G. Srinivas, Principal (FAC), ABV Government Degree College, Janagaon, presided over the programme.

He explained about the Women Empowerment Cell and various activities taken up by this Cell. He also talked about the conditions which are leading to anemia especially in girl students. He suggested to students to take iron content food such as ragimault and leafy vegetables.

Sri. Ravikanth, women and child welfare officer Chief Guest, gave a speech on how to avoid anemia in young girls and what are the reasons for anemia in girl students and what is meant by nutritious food. Discussions followed.
