Analysis of Student Feedback on Teacher

Student feedback on teacher is taken from students to evaluate the performance of teacher in respect of curriculum transaction with the objective to identify the gaps and improve the quality of transaction. The feedback is collected once in a year generally towards end of the even semester of the academic year. Feedback is collected from sample of students randomly selected on the day of the collection in the form of a response to a set of twenty queries on a five point scale ranging from poor to excellent. The questionnaire does not contain the details of student so as to ensure that student shall provide his/her response without any fear and favor.
The questionnaire consists of twenty queries on various aspects relating to curriculum transaction by teacher encompassing teaching, learning and evaluation activities. IQAC collected and analyzed provided inputs to the teachers. This process enables teacher to objectively look into each and every aspect of the whole process of curriculum transaction and improvise it.
