

**GOVERNMENT DEGREE COLLEGE, BELLAMPALLY**

**DISTRICT-MANCHERIAL, TELANGANA**

**DEPARTMENT OF ZOOLOGY**

**A REPORT ON GROUP DISCUSSION (2019-2020)**

.....

As a part of departmental annual curricular plan, the department organizes group discussions on various topics in the college. The main motive is to observe their personality, skills and ability to discuss the given subject and to suggest and guide them on how to take part in group discussions.

**Objectives:**

- To improve their knowledge of the given content through discussion
- To give an opportunity to combat with fear factor i.e. stage fear
- To connect with the audience and understand the concept of voice modulation
- To improve personality development along with effective communication skills with distinct pronunciation and articulation

Group discussions were arranged on content basis of the subject after the explanation in the regular class. The teacher as a facilitator introduced the topic first then students were given some time to think and recall it and then allowed to form groups with self introduction. Later 10-15 minutes of time was given for discussion. Then the group leader was invited to express their conclusion highlighting all the important points discussed by the group.

**Observations - Out comes:**

- Many participants participated with great interest but some were observed as passive participants
- It was observed that some participants though they have knowledge in the topic they were seemed to face some problem with expression and vocabulary
- As per the feedback of the students it helped them to understand and remember the topic very easily

At the end they were given some suggestions and hints.

## DEPARTMENT OF ZOOLOGY, GOVT. DEGREE COLLEGE, BELLAMPALLY

Title of the activity: Group Discussion-1  
Date: 05-09-2019  
Title of the topic: Diseases caused by Protozoan parasites  
Venue: B.Z.C. Classroom  
No. of students involved: 10  
No. of groups formed: 2
