#### **About the Institute :**

Inspired by such visionaries, the college was established to bring out the innate potential of the rural poor of Zaheerabad, a small town in Medak district, surrounded by a number of hamlets where people live cultivating land and struggling to eke out a living, deprived of higher studies. To endow students with creative intelligence and to help them to walk in the footsteps of eminent personalities, the college aims at giving its best to the students and at helping them become role models.

Government Degree College, Zaheerabad was established in August 1991, in a 2.35 acre campus with a meagre strength of 60 students. Gradually it has grown to 654 students now. Our collective efforts towards better academic standards and discipline in the campus, and the efforts of the Internal Quality Assurance Cell have yielded good academic dividends.
