To
The Forest Beat Officer
Hajipur
Mancherial District

Sub :Accepting for linkage, req, reg:

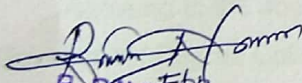

As per the subject cited above, we, GDC Luxettipet through the Botany Department, are intended to link our institution to the forest department. The main object of linkage is to insert the knowledge of maintenance of nurseries and conservation of forests.

Hence kindly, accept our linkage proposal, which will be beneficial for students.

Thanking You

Yours Sincerely

Department of Botany
GDC luxettipet

B. RAVI NAYAK
Forest Beat Officer

LINKAGE

In this instance, linkage is an activity where the Forest Department always welcomes our institutional efforts for conducting field trips, inviting forest officials for lectures on maintenance of Nurseries, importance and ways to conserve the forests etc.

OBJECTIVES OF THE LINKAGE

Inserting knowledge about the maintenance of nurseries, their importance and also the methods to conserve the forests and its importance.

ACTIVITIES UNDER THE LINKAGE

1. Conduction of field trips to Nurseries
2. Inviting forest officials for talks
3. Arranging training programmes on Conservation of the forests, to the students
4. Conducting Plantation drives.

LEGAL EFFECT

Activities under this linkage have no legal effect, just it is for the benefit of the students.

VALIDITY

This linkage will be effective for five years from 9.10.2017.

In accordance with the above mentioned objectives, we GDC luxettipet are very enthusiastic to have a linkage with your Forest Department, so that it may alleviate the students knowledge on various processes of environmental protection including maintenance of nurseries and Conservation of forests.

**PRINCIPAL
GDC LUXETTIPET**

Agreeing to the above mentioned procedures, we accept the linkage proposal from the Government Degree College, Luxettipet, in the instance that it is beneficial to the students.

Linkage accepted.

DEPARTMENT OF BOTANY

GOVERNMENT DEGREE COLLEGE, LUXETTIPET
FIELD TRIP TO HAJIPUR
BRIEF REPORT AND OUTCOMES
DEPARTMENT OF BOTANY

OBJECTIVE OF THE FIELD TRIP

To study about different flora in the nursery and also to know about organic farming as a part of certificate course and also to collect algae from nearby pond.

BRIEF REPORT

As per the objective cited above, the Department of Botany has conducted a field trip to Hajipur on 17.10.2017 as a part of experiential learning. In this visit students have gained knowledge on different types of flora, maintenance of nursery, preparation of organic manure and its benefits compared to chemical manures, also collected algae from nearby pond and also studied different flora and fauna in the pond as a part of environmental studies.

Flora observed in the nursery

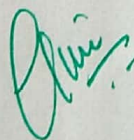

Gymnosperms

1. Dracena
2. Pseudo psuga
3. Abies balsamea
4. Cycas

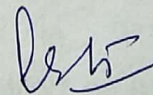

And many Angiosperm species were observed and also the gained knowledge about climate and environment required for their growth.

OUTCOMES OF THE FIELD TRIP

1. Students gained knowledge on maintenance of nursery and types of flora grown in the Nursery. Both Angiosperm and gymnosperm species were observed.
2. Students gained knowledge on Organic farming and also about preparation of organic manures.
3. By collecting the algae, students learned about the habitat of various algae.
4. Studied the flora and fauna as a part of the pond ecosystem related to environmental studies.
