Pin:502220**

**Chairman: DR.K.SRINIVASA RAJU, Principal**

**Convenor: DR.K.MALLIKARJUNA RAO, IQAC Coordinator**

**ABOUT THE WORKSHOP:**The main objective behind organizing the workshop is to identify and describe the factors which are essential in promoting new schemes of teaching, evaluation and innovations in the educational institutions under the proposed CBCS system.

The workshop also aims to enhance the awareness on the needs of institutional upgrading for effective implementation of CBCS in the HEI (Higher Educational Institutions in India) and to compare the existing system with the proposed CBCS in HEI and also to provide a platform for exploring and sharing experience, concerns and indicatives in HEIs.

**CHOICE-BASED CREDIT SYSTEM (CBCS)**

- The choice based credit system not only offers opportunities and avenues to learn core subjects but also exploring additional avenues of learning beyond the core subjects for holistic development of an individual.
- CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers.
- It provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system.
- CBCS makes education broad-based and on par with global standards. One can take credits by combining unique combinations. For example, Physics with Economics, Microbiology with Chemistry or Environment Science etc.
- CBCS offers flexibility for students to study at different times and at different institutions to complete one course (ease mobility of students). Credits earned at one institution can be transferred.
