VARIOUS TYPES OF GEARS AND NETS

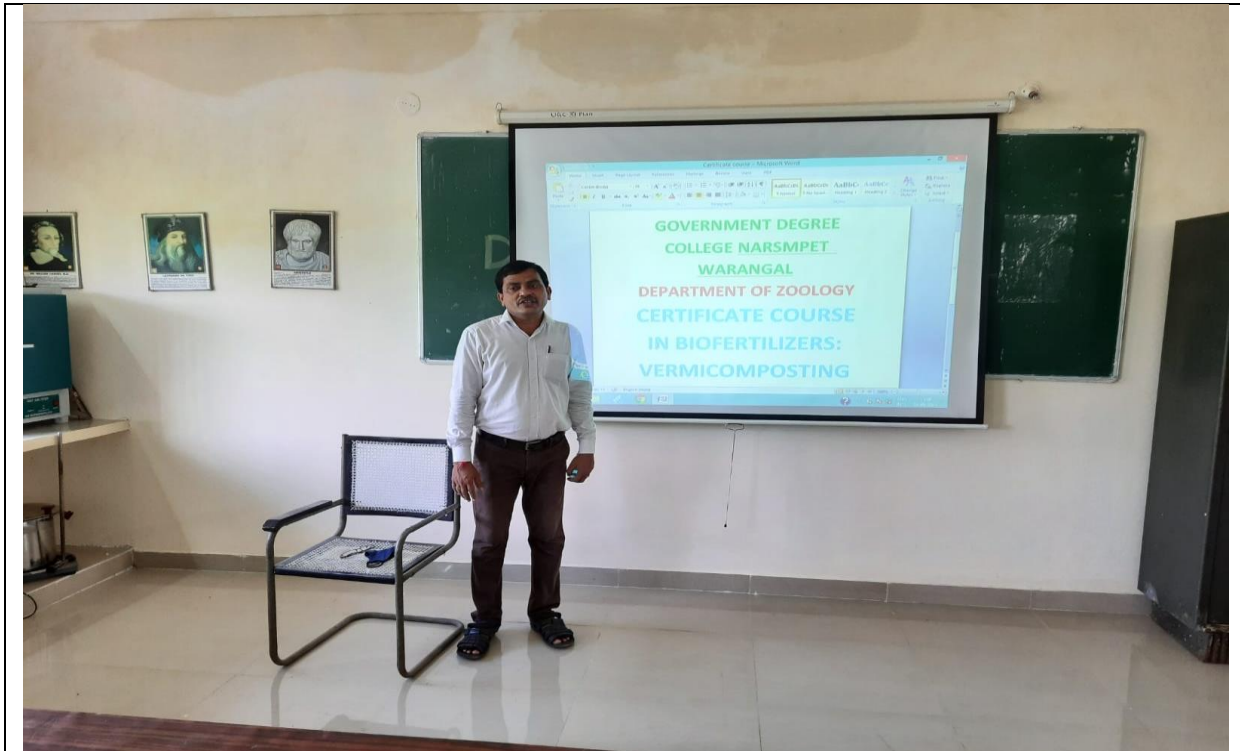

Fishing become the occupation of certain people (Fishermen) ever since the dependence of Man over fish as food. Gears and nets used by these people also undergone changes for better fishing. Fishing methods depends upon the species fish, area of fishing, nature of water and financial status.

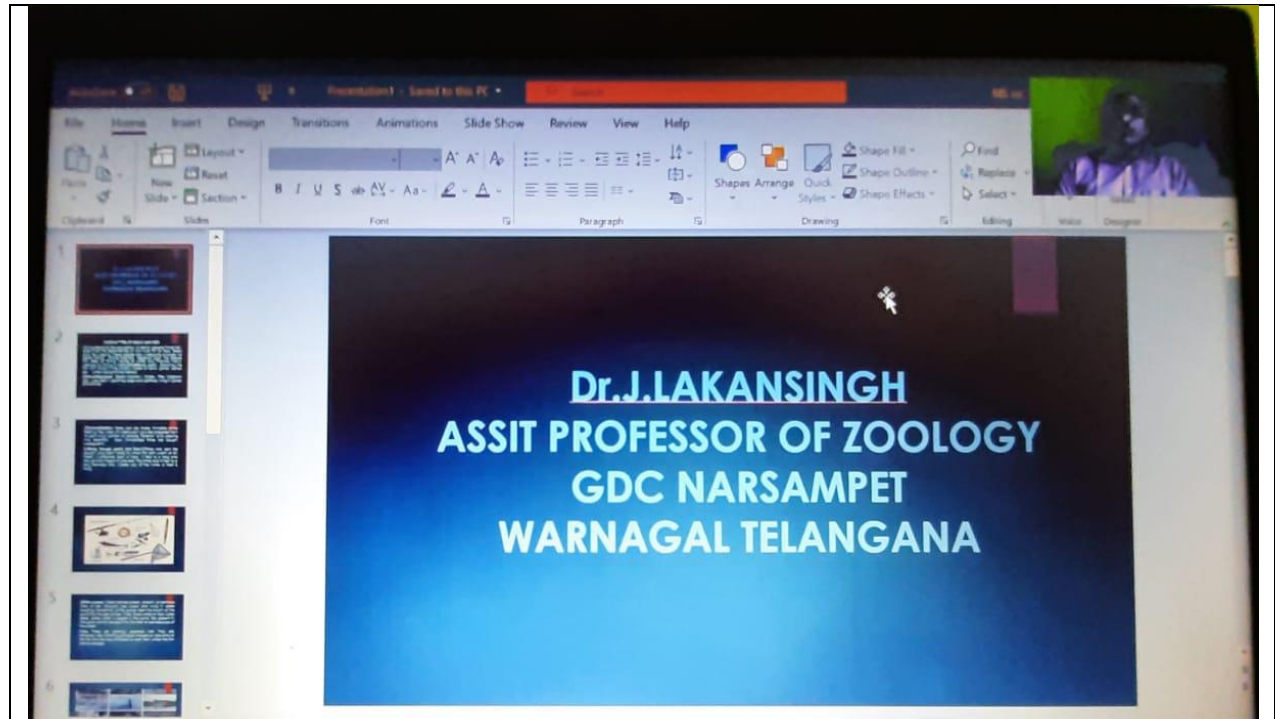

Methods of fishing in India: (i) **Traditional catch** : Catching the fish with hands in the shallow waters of tanks, ponds, canals ect.. Is the most primitive method.

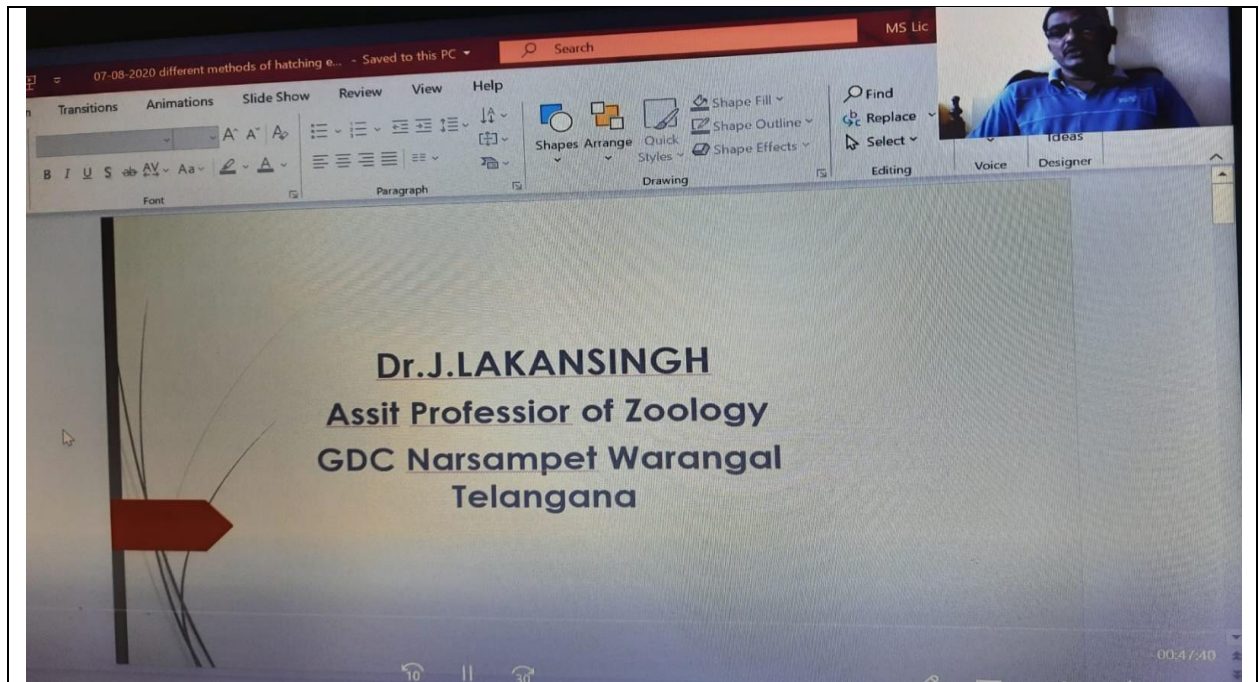

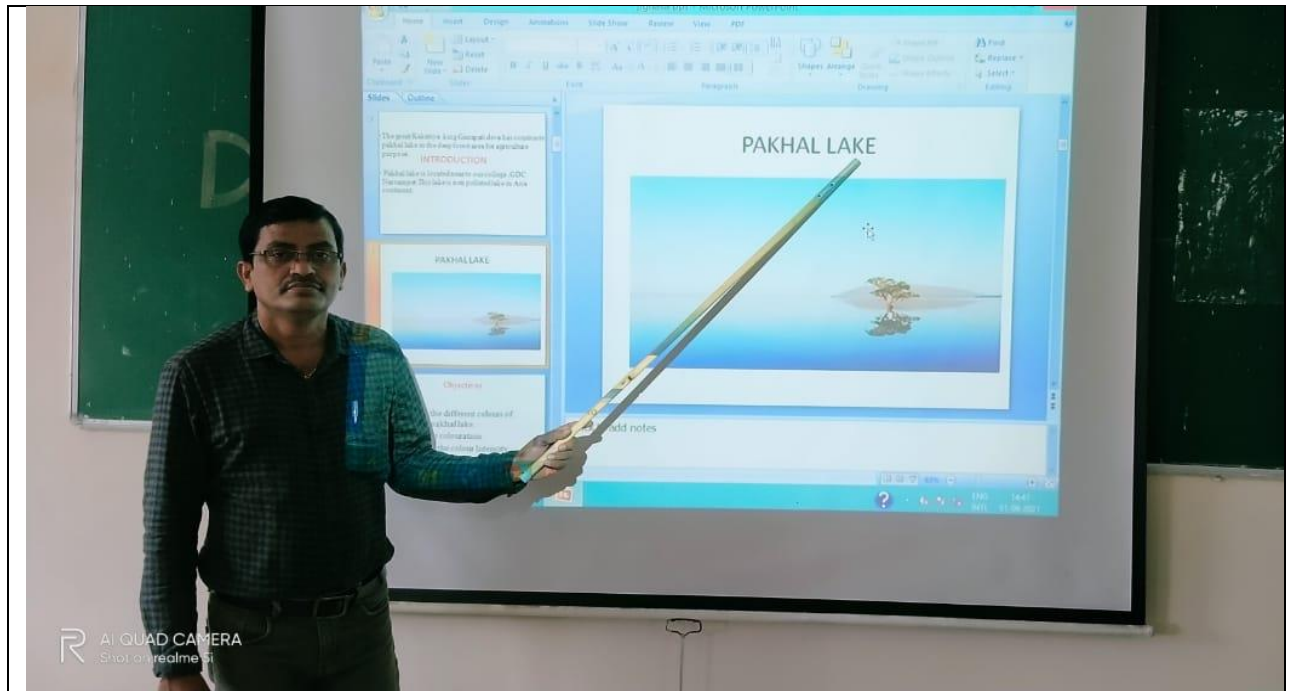

(ii) **Wounding gears** : Spears (koonch), lances, rifles, harpoons, ect. Are used in catching carps and catfishes living in ponds and ditches.
