DEPARTMENT OF ZOOLOGY

FIELD TRIP – REPORT

Field trip is a journey by a group of people to a place away from their normal environment. The purpose of the trip is usually observation for education and a non-experimental research to provide students with experiences outside their everyday activities. And for students zoo is an ideal place to know and learn about different animals. A zoo is a place where various birds, animals and reptiles are kept, which we cannot see generally in our surrounding.

Objectives:

- to observe animals and feel a connection with wildlife
- to study diversity of animal life and how interactions with biomes affect that diversity
- to observe the behavior of the animals
- Watching them walk or fly, nest, interact with one another
- to familiarize students with exotic and endangered animals.

So on one fine Thursday, i.e. 07-02-2020 , we the students (190) of UG First ,Second and Final year along with our teachers in two buses, started our trip for the Nehru Zoological Park,Hyderabad. We enjoyed the bus ride through the city.

Finally we reached the zoo ON 07-02-2020 around 11 O' clock. The zoo at Hyderabad is named as Nehru Zoological Park and located at a distance of 16 km from Hyderabad. It is situated near the historically important Mir Alam Tank, which is 200 year old and is the first multi-arch masonry dam in the world. Spread over an area of approximately 380 acres, the Nehru Zoo Park boasts of almost 1,500 species of birds, mammals and reptiles. We got down from our buses and gathered near the entrance in pairs, in the mean while some of our teachers arranged our tickets.

We entered the zoo park showing our tickets and passing through check points in queue. The first sight after entering was a beautiful and well maintained garden with lots of greenery.

There were separate enclosures for birds, animals and reptiles. Different animals have separate well protected enclosures, some were open where as some were closed.

At first we saw a big tortoise and our car driver told us that it is 200 years old. OMG!

Then we saw different animals such as Tiger, Lion, Jaguar, Leopard, Elephant, Bears, Fox, Wolf, Hippo, Giraffe etc. The lion was roaring loudly. Our teachers explained us many important and interesting things about the animals. While crossing from one enclosure to another, suddenly we saw an interesting Rhino, he was standing very close to the boundary and was

nodding his head as if calling us. We were very happy to see it, we waved him bye and kept our journey on.

Then we came across different varieties of deers, neelgai, antelopes, including black bucks, a rare Indian variety.

In the birds section we saw different types of parrots, pigeons, peacocks, lovebirds, emu and cranes. We also saw the biggest bird from Africa- Ostrich. Some Students were amazed how a bird can be so big. The most wonderful scene was to see a dancing peacock.

In the reptile section we saw different types of snakes, Iguanas and chameleons. They were kept in glass cages with their names written on them. Then we saw many crocodiles and alligators kept in an artificial lake. One crocodile, which was nearest to the fence was so still with its open mouth, that we thought it was a statue, but suddenly it started moving and we all got scared.

At last we got down from our cabs and started walking towards the exit

with a lot of enjoyment and excitement. With so much of greenery and different sound of animals and birds, we were feeling like walking through the wilderness. It was a unique and wonderful experience in today's busy and crowded world.

Just beside the exit gate we went to our last stop. From outside it looked like a normal house but when we stepped in, suddenly from green forest we reached inside a sea, as this was the section of water animals. Here we saw different types of colorful fishes and corals in different aquariums. They looked so stunning and attractive. Finally the time came to say good bye to all the wonderful animals and birds and we headed toward the exit gate.

Then we started our journey back to Nalgonda at around 5:30p.m. We had a great time with our friends and teachers and also learnt many interesting things about different birds and animals. We came out of the zoo with so many pleasant memories to share with our friends and family.

LIST OF FOLLOWING STUDENTS PARTICIPATED IN FIELD TRIP

SINo	HTNO	Name of the Student	Group
1	16044012445003	ARRA ABHILASHA	II YR BZC EM
2	18044012445002	ALLI MOUNIKA	II YR BZC EM
3	18044012445003	ALLI SHIRISHA	II YR BZC EM
