

## Group Discussion

3

Teachers of 'Mathematics' Department have conducted with good number of students, Group Discussion in various topics such as 'Importance of Mathematics'.

Group Discussion use to help students to understand a topic (or) concept deeply which will stay for a long time in their minds.

Improve Communication skills and also used to improve communication skills as it can encourage students to become more confident in speaking up and asking questions.

Having group discussions in the classroom is not only beneficial for students' social skills, but also their educational development and learning too.

Students were participated in good numbers and expressed their experiences and appreciated each other.

The overall experience of the teachers and students was satisfactory his practical experiences.
