

ICRISAT FIELD TRIP

OBJECTIVE:-To improve skills or knowledge to the students various research on agriculture crops and how to yield the crops to increasing population day to day life.

The ICRISAT Means (International crops research for semi arid tropics) is an international organization which conducts agricultural research for rural development, headquarter in patancheru with several regional centers and research stations. It was founded in 1972 by consortium of organizations convened by the ford and Rockefeller foundation. Its charter was signed by the FAO AND THE UNDP.

On the day of field trip to B.Sc (bzc) students went to ICRISAT at 10:30am from Gdc Narayakhed . The guards check our permission letter and enter into ICRISAT. Primarily they arrange the bus and w travel to whatever the crops growing and scientist take research on crops. The scientist **Sri.Dr.Sharma** take over to travel and explain each and every crop like which type of soil , fertilizers and seeds will used.

According scientist this institute contain two main soils 1. **Red soil** 2. **Black soil** . mainly the crops in ICRISAT which is more difference from our field crops. The crops which look in ICRISAT they are tall and hybrids.

The scientists and all the student s went to research room and observed the pictures of crops like **rice, wheat, grams ,mints** various crops yielding by day to day increasing population.at last I and student s know the importance of *ICRISAT* and in future the students take on mind to improve skills to mobilize the research on crops .
