Report On Energy Conservation day

Energy Conservation Day is observed every year on December 14. The day focuses on making people aware of global warming and climate change and promotes efforts towards saving energy resources.

In India Energy Conservation Act was implemented by the Energy Efficiency Bureau (BEE) in 2001. Energy Efficiency Bureau (BEE) is a constitutional body which works under the Government of India and helps in the development of policies and strategies to reduce the use of energy.

With the growth in the population, the requirement for energy is also increasing continuously. Thus, every year 'Energy Conservation Day' is celebrated to raise awareness among the general public about the importance of energy conservation and energy efficiency.

Energy conservation is an effort made to reduce the consumption of energy and to use at least energy so that energy sources can be saved for future uses. However, energy conservation is achievable either by using energy more efficiently or by reducing the amount of service usage. Most of the energy sources we use in our daily lives are 'non-renewable' they cannot be reused and renewed. It is said that our energy resources may last only for another 40 years or so.

Therefore, every individual must include energy conservation in their behaviour and to make energy conservation plan more effective.

The vice principal Sri S.J Sampath Kumar chaired the program with other lecturers. The NSS Program officer Sri G Rajendar, Asst. prof. in Botony is participated.

Report On Ekta Diwas Program

India is a vibrant and diverse nation with many people of different castes and religions, speaking different languages are living together in complete harmony. National unity is significant for construction of a complete nation with the aim of “One India, Excellent India” (Ek Bharat Shrestha Bharat). It was aptly said by the Iron man of India Shri Vallabh Bhai Patel “Manpower without Unity is not a strength unless it is harmonized and united properly, then it becomes a spiritual power”. Good relationship

among the people of the nation is a binding force that brings peace and development and also enable us to unify against various threats of enemies.

National Unity Day is an initiative celebrated every year to commemorate Sardar Vallabhbhai Patel's birth anniversary. Sardar Patel was born on 31st of October in 1875 in Gujarat. He was first Home Minister and one of the founding fathers of the Republic of India. He was a great social leader who worked enormously for the integration of people to make India a united and independent nation. He united 565 princely states to give India her present identity. National Unity Day initiative was introduced by the Government of India and inaugurated by Prime Minister Narendra Modi in 2014. In an official statement for Rashtriya Ekta Diwas (National Unity Day) by the Ministry of Home Affairs quotes that the National Unity Day "will provide an opportunity to re-affirm the inherent strength and resilience of our nation to withstand the actual and potential threats to the unity, integrity and security of our country". Run for Unity is a nationwide campaign organized to celebrate this occasion which signifies peace and harmony among the fellow citizens of the country. Unity in diversity will always remain the prime pillars for the effervescent democracy of our vast nation and a key to its global success

'Ekta Diwas' was observed in Atma Ram Sanantan Dharma College. On 28-12-2019 the NSS volunteers took the 'Ekta diwas'. The students took the pledge to preserve the unity and integrity of the nation and spread this message among the countrymen. The Programme Officer administered the oath to the NSS volunteers.

The task of uniting 565 princely states specially the Nizam of Hyderabad was a Herculean task and it was done by none other than the Iron Man of India.

The program is held under chair man ship of Principal Dr abdul Ansar along with other NSS Program officers.

Report On UNIT – I Nursery Plantation

Nurseries are places where seedlings are raised for planting purposes. In the nursery the young seedlings are tended from sowing to develop in such a way as to be able to endure the hard field conditions. Whether local or introduced species, nursery seedlings are found to have better survival than seeds sown directly in the field or through natural regeneration. So nursery seedlings become the planting material for plantations, whether these plantations are for production, protection or amenity.

By following precautions for plantation students are planted various plants in the garden, surrounding of class rooms etc in the college campus.

Dr. Abdul Ansar, Pricipal, Dr. S. J. sampth kumar , vice principal are participated in the program. and also NSS Program Officer Dr. Shafiq ahmed participated.
