## SWOC

**Strengths:** The Government Degree College Gajwel has the following strengths:

- A state-of-the art infrastructure which can accommodate a greater number of students and programs
- The College has 42 acres of land and can expand further to meet the future needs.
- As the college is located in the Boys' Educational Hub, which is the dream educational project of the Chief Minister, there is always possibility to acquire enough funds for any academic activity.
- Hostel Facility for boys hailing from far off places

- Highly qualified, experienced and committed faculty
- Well-equipped laboratories which are designed on the model of the laboratories of the BITS Pilani
- Affiliated to Osmania University which is well-known for its academic and other curricular programs
- Enthusiastic, meritorious and obedient students
- Well-ventilated classrooms which substantially reduce the power consumption
- Only the college offering post-Graduation course for rural students in the surrounding areas
- All eligible students can get fee reimbursement from the State Government which is a great incentive for the students from a poor economic background.

**Weaknesses:** Though the college is blessed with the strengths mentioned above, the Government Degree College Gajwel is suffering from the following weaknesses:

- New College Building is located 4 kilometers away from the Gajwel town making it difficult for the students to commute from the rural areas.
- Just because of the location of the college building in the Boys' Educational Hub, the girls' admissions have been stopped on the online admission system (DOST) causing decrease in the admissions.
- Since the college is a public-funded educational institution, it needs to adhere to the stringent rules and regulations of the State Government, reducing the functional autonomy of the college.
- Less frequency of RTC buses making transportation difficult

**Opportunities:** Despite the weaknesses mentioned above, the college has the following opportunities with which it can better itself and can become an institution of eminence:

- Optimum utilization of the available infrastructure and other facilities and resources
- Obtaining Autonomous Status so as to function in a much more independent manner
- A greater number of the post-graduation programs can be introduced, beside the present three P.G. programs.
- Introduction of new market-driven courses

- More Linkages and MoU's with the industries located nearby, thereby utilizing their practical expertise for the benefit of the students
- The NSS can further instill amongst the students a sense of service and train them in social skills.
- The NCC can be a better source of attraction to the students. Since the NCC increases job opportunities to the students in army and police force etc., it can be used for increasing admissions in the years to come.

**Challenges:** In order to grow further as a vibrant educational institution, the college faces the following challenges:

- Optimum utilization of the existing infrastructure
- Maintenance of the huge building with the carpet area of 90,960 square feet is a big challenge
- Reopening of admissions to the Girl Students through DOST, since the institution is still a co-education college
- Increased frequency of RTC buses to the college from the Gajwel town
- Scaling up campaigning to reach much wider student population to attract them towards the college
- Besides the present two teachers who are research supervisors, obtaining guideship for greater number of eligible teachers for guiding Ph.D. and M.Phil. scholars
