Comprehension is the understanding and interpretation of what is read. To be able to accurately understand written material, children need to be able to

- Decode what they read;
- Make connections between what they read and what they already know; and
- Think deeply about what they have read.

Comprehension adds meaning to what is read. Reading comprehension occurs when words on a page are not just mere words but thoughts and ideas. Comprehension makes reading enjoyable, fun, and informative. It is needed to succeed in school, work, and life in general.
