

# GOVERNMENT DEGREE COLLEGE, MEDAK

## 7.3. Institutional Distinctiveness

Government Degree College is the only higher educational institution in the Government sector in the town of Medak. The spacious classrooms, latest technology equipped and beautifully decorated seminar hall, sports room, gym for both boys and girls , open yoga centre, open dais, greenery in the middle of the building, playground, botanical garden add more color to the college environment. This campus has three borwells for water distribution to plants and also for other usage. The college has separate RO plant installed for providing pure drinking water. The college is provided with library containing sufficient number of books for students and reference books for staff.

The Institution strives to empower today's women and uphold universal moral and social values along with a number of other visions. This year too, the institution has worked and achieved some milestones as a part of their social outreach activities. The three NSS social outreach units and two NCC units have worked in coordination to try and touch lives in different strata of the society. Even during the hard times of the pandemic when the institution space became inaccessible and physical meetings were not possible the social outreach units adapted to the need of the hour and continued their services towards the society in all possible ways.

Student members were also encouraged to participate in various activities and webinars that included relevant topics like yoga, mental wellbeing, health awareness, legal issues, social causes, gender stereotypes, waste management, career opportunities and such others. Volunteers are taking online classes, many of them have used the college NSS platform to help people in pandemic times by posting information about availability of blood, oxygen supply, hospital beds etc. They have also collected money and other useable articles from doorsteps of donors through collaboration to help people affected by the pandemic.

The college is very modern in its outlook. It has all the infrastructural facilities to make it modern like seminar halls, projector, screens and boards, audio visual classrooms, ICT classrooms for digital teaching, health centre for first –aid treatment, separate computer lab for both commerce and science students, TSKC lab with ample number of systems, provision of internet and Wi-Fi connectivity in the entire college campus including library and the laboratories. The digital library and examination branch also has power back up in order to provide uninterrupted power supply to the staff and students of the college.
