NATIONAL SCIENCE DAY CELEBRATIONS-2021

National science day is celebrated all over India on 28th February to mark discovery of the phenomenon of Raman Effect by CV Raman in 1928 and for his remarkable discovery in 1930 he got Nobel prize which was the first Nobel prize for India in the field of science.

It is not easy to say the way science and new technologies are evolving with the help of science, human have made their lives better and easy. Not only this, we have made impossible things possible like man is reaching into space, robots, computers etc, have been invented. Therefore science holds great importance in our lives. India has also contributed a lot in the Field of science. Many great scientists were born in India and recognized India in the field of science and made a separate place too. On 28th of February every year the national science day is celebrated in India.

In 1928 an Indian scientist Sir Chandrasekhara Venkata Raman discovered a phenomenon known as Raman Effect and for his remarkable discovery in 1930 he got Nobel prize, which was the first Nobel prize in India in the field of Science and to mark this **discovery** every year National Science Day celebrated.

Theme of National science day 2021:

Future of STI (Science, Technology and Innovation): Impact on Education, Skills and Work

government Degree college, Medak, Department of Physics celebrated the "National Science Day" on March 1st, 2021 as a mark of respect to the most eminent scientists of India and the World. Dr. C.v. Raman. As part of the celebrations, competitions were held for students of GDC, Medak College on 27^h February 2021. The competitions included Chart model making, there was enthusiastic participation for all the competitions from the students.

Sri Dr. A. Sudhaker, principal of the college expressed his views on how we should never fear to follow our dreams and never stop questioning. He addressed the gathering by saying that students should participate actively in all the career building programmes organised by the college.

Smt C. Sudha Rani, lecturer in physics addressed the gathering by giving the information about the department of Physics and curricular and cocurricular activities organised by the department. She advised students to participate in student study projects, field visits and encouraged students to prepare models based on physics.

sri A.Venu gopal Rao, lecturer in chemistry expressed happiness for huge participation of students in science day celebrations. He advised students to do minor research projects,

Sri J. Pashupati Sharma, lecturer in mathematics, addressed the gathering by saying the importance of science, in day to day life. He recollected the use of physics for the time we wake up to time we sleep.

Sri Dr. P. Mattaiah Yadav, lecturer in English, addressed the students by saying to encourage all innovations, moral values, those are helpful. At the present, handicrafts, and traditional products, to make them workable and available there

Smt N.Aruna kumari,
