QUIZ:

To reinvent the education system and give students a break from traditional classroom learning, there is a dire need to revive the quiz culture in colleges. Technology can act as a facilitator by bringing innovation to quizzes and ensuring active participation among students.

Interactive Platform:

Today, quizzes are interactive platforms where students are not participating to take home a prize or get famous overnight, but to gain knowledge, seek opportunities to excel beyond academics and secure their future.

Encourages Team Work:

Students need to form teams while participating in quizzes, giving them an opportunity to hone their teamwork skills.
