

Study Project

Introduction:

This project is to develop a website for samajik charitable trust. Samjik charitable trust, a non profit organization certified by CSR, which helps society by doing charitable events which include providing essentials for people in need, provide financial assistance for performing marriages of poor etc. The trust is founded and directed by Smt. Saritha Ojha. Smt. Saritha Ojha is closely associated with Government Degree College, Luxettipet and she has participated in various certificate courses as resource person. When she made a request to develop a website to promote their charitable trust and reach potential donors, we gracefully obliged her request.

Objectives:

The objective of this project is to develop a website to promote the activities done by samajik charitable trust and reach potential donors who are willing to join the noble cause. When the website is developed and hosted, people will be able to have a glance at the charitable events conducted by the samajik chartable trust and donors can contribute. Details of contact will also be displayed on the website. In a student's perspective, after completion of the development of the website students involved in the project will be able to work on various aspects of website designing like using cascading style sheets, java script, purchase domain name, hosting a website in a domain server etc.

Sl. No.	Title of the project	Name of the student	Name of the guide
01	Development of website for samajik charitable trust, Mancherial	1. Ch. Sushmitha, B.Sc (MPCs) – III year. 2. Ch. Ravi Kumar, B.Sc (MPCs) – III year. 3. G. Karthik, B.Sc(MPCs) – II year. 4. M. Sucharitha, B.Sc(MPCs) – II year. 5. A. Manasa, B.Sc(MPCs) – II year.	Mr. T. Sathish, Lecturer in Computer Science & Applications,

Technicalities:

Website is designed by using html, cascading style sheets, java script, SPALSH event

- The domain was purchased and registered from godaddy.com.
