

BABU JAGJIVAN RAM GOVERNMENT DEGREE COLLEGE

Narayanaguda, Hyderabad.

**ENERGY EFFICIENCY
COMMITTEE**

About the committee

Energy Efficiency Committee evaluates the usage of energy of the college. This committee finds any misuse of energy resources and suggests college some measures to conserve energy. The committee advises certain measures to college administration to reduce energy bill. Committee believes that energy conservation equals to energy production and conservation of energy leads o conservation of recourses, ecology and environment. Committee slogan is Save Energy-Save Nation-save the Globe. The Committee is aware students to conserve energy. Through students, we bring awareness to society to save energy.

Objectives

- Estimating the amount of power that college requires.
- Identifying any power wastage in the college
- Suggesting measures to stop power wastage.
- Take measures to reduce the power bill
- Take measures to reduce the energy expenditure of the college
- Advise college administration to reduce energy expenditure

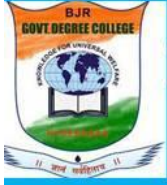

Outcomes

- Replaced energy-guzzling lights with energy-saving LED lights
- Replaced power-hunger fans with power-saving BLDC fans
- Upgraded load of the transformer to match college power demand and finally to reduce power bill of the college.
- Placed energy-saving add boards in the college to aware all the stakeholders to aware about power saving.
