**EDUTAINMENT CLUB**

## **About the Club**

The department of English has started an edutainment club to promote communicative and interactive English. The club is a place where language learners participate in various activities designed to educate as well as entertain students and make language learning enjoyable. It gives a chance to the students to learn English with fun, it is also a place for students to improve their English. The focus of the club is on practicing oral language skills, listening skills and writing skills. A good thing about creating an edutainment club is giving an opportunity to the students to learn the English language through entertainment which helps in building their personality, discover, understand and develop their communicative competencies. It is a place for language learners to learn English in a casual setting. The aim of the club is to inculcate among students a love for learning and enhancing their language skills. It encourages student to use English language in a relaxed atmosphere away from the class room pressure. The club helps in building a rapport of co-operation between student and teacher. It also aims at influencing the young minds and energizing them to transform their imaginations into expressions. The purpose of the edutainment club is to help the students to ease themselves from the fear of learning the English language.

## **OBJECTIVES**

- To promote communication skills in students and help them to speak in English before an audience
- To promote the ability to express their thoughts and ideas in an artistic and creative manner
- To inculcate among the students a flair for the English language and enhance their literary and communicative skills.
- To encourage them to think out of the box, bring out their hidden talents and guide them to apply their skills.
- To increase the emotional quotient of the students and imbibe a sense of confidence.
- To de-stress the students from their daily routine
- To create an English speaking environment in the campus

## **OUTCOMES**

- Better academic performance
- Students confidently participated in the interdisciplinary competitions like debate, elocution, JAM etc. conducted at our college level.
- Helped in breaking the monotony of class room teaching and also helped students present their views before the whole class in a confident manner
- Students could face Job Interviews confidently
