DEPARTMENT OF HISTORY

GOVERNMENT DEGREE COLLEGE, MAHABUBABAD

FIELD TRIP REPORT

2016 -17

PLACE OF VISIT : RAMAPPA TEMPLE

Date: 10.02.2017

A Report on FIELD VISIT on Ramappa Temple for

English students Organized by DEPARTMENT OF `ENGLISH, GDC , Mahabubabad . Field Visit is considered as one of the practical methods of teaching . The main reason behind this is that, it lets students to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim site visit is to provide an exposure to students about practical working environment knowing about the importance of Historical famous temple Ramappa . Temple management also provide students a good opportunity to gain full awareness on Ramappa Temple . Through site visit students are acquainted about new ideas and knowledge. This visit was planned as part of curriculum requirement of the subject, and

Useful to communicate with society. It was organised with the prior permission of our Principal.

Summary;

This visit helped the students very much. They got the Historical knowledge of Ramappa Temple . This Ramappa Temple is located in Palampet Village of Venkatapur Mandal Which is 65km from the District Head quarters . The name Ramappa Temple brings mind the intricate carvings and floating bricks - the 800 year old engineering marvels of Kakatiya regime craftsmanship .

There were times people from far and wide made a bee line to see and believe that bricks here float on water . After a gap of two decades , this ancient temple , located on the sprawling lake named after sculptor Ramappa , has been attracting tourists in hordes.

This temple is built in 12-13 AD by Racharla Rudra , a general of Kakatiya king Ganapathi deva . The presiding deity here is Ramalingeswara Swamy . Local legend has it that a sculptor named Ramappa from Karantaka executed the temple for 40 years and hence it was named after him . This is believed to be unique as no were in the world a work is named after Sculptor .

Among the amazing carvings include a flute at the entrance of sanctum sanctorum which when hit make the sound sa-ri-ga-ma . The pillares with in the temple boast of such a fine carvings that one could pass a strand of hire throw . It has 13 such carvings perhaps indicating the 13th century when it was constructed . Inside roof above one's head , the sculptors featured epics on Eight sides . A complete story of 'Ksheera sagar madhanam' was carved on one beam and so also on other beams featuring - Dakha samharam , Daksha yagnam , Tripurasura samharam , Gajasura samharam and Narakasura vadha , Gopika vastra paharanam .

They used red sand stone for the temple while black granite was used for carving out amorous statues adorning the temple outside connecting

roof and walls . The dancing girls in erotic forms bring out the artistic splendour of those days . The columns were arranged in such a fashion that sun light reflects on the garbhagriha all the time .

One of the striking features of the temple is the statue of Nandi in Nandi Mandapam , facing Lord Shiva's shrine . It is said that unlike the Nandi statues elsewhere in shiva temples , this majestic Nandi statue is in an "attentive" Posture .

The tourism Department has set up beautiful cottages on the banks of lake amidst lush green forest and restaurant offering wide variety of dishes.

The staff and students enjoyed this trip and back with full of knowledge .

A Report on FIELD VISIT, Kuravi Veerabadhra Swmi Temple Mahabubabad For Mathematics students Organized by DEPARTMENT OF Mathematics, GDC , Mahabubabad Kuravi Veerabadhra Swami Site visit is considered as one of the tactical methods of teaching. The main reason behind this: Students saw the construction and analyzed higher heights of wall of temple, how to find when we swa form one one point pf temple dome its angle is 60/30 degree learned by trigonometry height s and distance topic to explain to practically understand to the students. Main aim of site visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness. Through site visit students are acquainted about new technologies and knowledge. It was organized with the prior permission and guidance of honorable Principal. Faculty members and students took great interest and made this visit a grand success.

Summary;

This visit helped students to enhance collective theory and practical knowledge. We visited Kuravi veerabdhra Swami Temple, Mahabubabad. They protect different species of animals, birds etc., The Temple contains different types of wells. They explained the theory of Heights and Distance by using the Trigonometry functions.

This trip made the students enjoyable and knowledge they got the theory of High's and distance in trigonometry.

DEPARTMENT OF MATHEMATICS

PLACE OF VISIT : Anantharam

2020-21

Date ; 15-03-2021

A Report on FIELD VISIT, Anantharam Mahabubabad for Mathematics students Organized by DEPARTMENT OF `Mathematics, GDC, Mahabubabad .Site visit is considered as one of the practical methods of teaching. The main reason behind this: it lets students to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim site visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness. Through site visit students are acquainted about new technologies and knowledge. This visit was planned as part of curriculum requirement of the subject, and useful to communicate with the society. It was organized with the prior permission and guidance of honorable. Faculty members and students took great interest and made this visit a grand success.

Summary;

This visit helped students to enhance collective theory and practical Knowledge and entertainment The Jagannatha Venkateswara Swamy temple, located atop hillocks in antaram. The temple, which is said to have been built in the pre Kakatiya period. One Ananta use to climb the hillock and pray lord Jagannadha. He appeared with his consorts Subadra and Balabadra. The temple is now managed by the State Endowments Departments. The District Administration is planning to develop the temple into tourism spot.

This Field trip is very useful, the students prayed lord Jagannatha and enjoyed the beauty of nature.

Report of Filed Trips from 2016-17 to 2020-21

The objectives of field trip are to:

- Create a memorable social experience and intense situated learning experience
- Linking classroom learning with industry
- Provide an opportunity for students to work with industry experts and gain hands-on experience
- Teach students about the diversity of the industry
- Promote communication and social skills
- Demonstrate how to create an inclusive, fun social experience
- Expose students to a range of career options
- Provide students with their first professional network in the industry
- Immerse students in nature-based products.

Academic Year 2016-17: Laknavaram

Laknavaram Lake is a lake located in Govindaraopet mandal in Mulugu district. It is located 17 km from Mulugu and 80km from Warangal, Telangana. The lake is spread over an area of 10,000 acres and holds about 2.135 tmcft of water. It irrigates over 3,500 acres of land. It was built by Kakatiya kings. It has about 13 islands in it and has a 160 meters long hanging bridge, which connects three islands. It is surrounded by a thick deciduous forest, and it is a very popular tourist spot. The Students Learnt about the Boating and String Bridge, Which is situated at the Lake.

On the same day students visited the Ramappa Temple also.

Ramappa Temple, also known as the Rudreshwara temple, is a UNESCO World Heritage Site located in Telangana, India. It is 15 km (9.3 mi) from Mulugu, 66 km (41 mi) from Warangal, 209 km (130 mi) from Hyderabad. An inscription in the temple says it was constructed in the year 1213 CE by Recharla Rudra, a General of Kakatiya ruler Ganapati Deva 1199–1262. Located in the vicinity of Ramappa Lake, the Ramappa Temple complex which consist of three temples was constructed between 1212 and 1234, designed and architect by Ramappa, after whom the temple complex is named.

The temple is a Sivalayam, where Lord Ramalingeswara is worshipped. Marco Polo, during his visit to the Kakatiya empire, allegedly called the temple "the brightest star in the galaxy of temples". Ramappa Temple stands majestically on a 6-foot (1.8 m) high star-shaped platform. The hall in front of the sanctum has numerous carved pillars that have been positioned to create an effect that combines light and space wonderfully. The temple is named after the sculptor Ramappa, who built it, and is perhaps the only temple in India to be named after its craftsman.

The main structure is in a reddish sandstone, but the columns round the outside have large brackets of black basalt which is rich in iron, magnesium, and silica. These are carved as mythical animals or female dancers or musicians, and are "the masterpieces of Kakatiya art, notable for their delicate carving, sensuous postures and elongated bodies and heads". On 25 July 2021, the temple was inscribed as a UNESCO World Heritage Site as "Kakatiya Rudreshwara (Ramappa) Temple, Telangana".

Introduction of the field site:

Date of study: 21st Dec 2019 (Saturday)

Time of study: 11:00 a.m-01:00 p.m.

Weather conditions: Sunny day the temperature is about 25⁰C

Location of the study: Shalivahana (MSW) Green Energy Limited,
Rebbaldevapally, Sultanabad (Mandal), Karimnagar.

Guide Teachers: 1. R. VENUGOPAL 2. T. Narahari

DEPARTMENT OF PHYSICS

Academic Year 19-20: Bheemunipadam Water Falls and

Railway Station, Mahabubabad

Date of study: 24th Jan 2020 (Friday)

Time of study: 11:00 a.m-03:00PM.

Weather conditions: Sunny day the temperature is about 28^oC

Location of the study: Bheemunipadam, Mahabubabad (Dist.) and

Railway Station, Mahabubabad., Mahabubabad (Mandal), Mahabubabad.

Guide Teachers: 1. R. VENUGOPAL 2. T. Narahari

Bheemuni Paadam Waterfalls is situated in **Seethanagaram Village, GUDUR Mandal, Mahabubabad** in **Telangana State, INDIA**. At 10 km from Gudur Bus Stand, 55 km from Warangal, 88 km from Khammam Bus Station and 200 km from Hyderabad, hidden inside a dense forest, is a picturesque waterfall known as Bheemuni Paadam (Bheema's step) The Bheemuni Padam waterfall came into limelight recently when determined tourists began making their way to it.

At the Bheemuni Padam, water falls from a hillock from about 20 feet in a semi-circular enclosure. Apart from the sound of falling water, it is quiet all around. It has not been conclusively established where the water comes from. Even when the flow is less, it is used to irrigate local fields. Visitors say the waterfall has lot of scope if facilities are provided and the tourism department markets the place. Lack of security is a concern since the area can get lonely.

Railway Station: Mahabubabad

DEPARTMENT OF PHYSICS

Academic Year 2020-21

Fieldtrip Spot: Electric Substation, Mahabubabad

Date of study: 24th Sep 2021 (Friday)

Time of study: 11:00 a.m-01:00PM

Weather conditions: Sunny day the temperature is about 32^oC

Location of the study: 11KV Electric Substation, Anantharam,
Mahabubabad, Mahabubabad (Mandal), Mahabubabad.

FIELD TRIP REPORT

2016 - 17

PLACE OF VISIT : District Library Mahabubabad.

Date: 06.12.2016

FIELD TRIP REPORT

2017 -18

PLACE OF VISIT:Kinnerasani Dam

Date: 15.09.2017

A Report on FIELD VISIT Kinnerasani dam Khammam dist. for Telugu students Organized by DEPARTMENT OF `TELUGU, GDC , Mahabubabad . Field Visit is considered as one of the tactical methods of teaching . The main reason behind this is that, it lets students to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim site visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness. Through site visit students are acquainted about new ideas and knowledge. This visit was planned as part of curriculum requirement of the subject, and Useful to communicate with society. It was organised with the prior permission of our Principal.

Summary;

This visit helped the students very much. They got the knowledge of Kinnerasani dam. This project is a medium irrigation project constructed across Kinnerasaniriver. The proposed ayacut under this project is 10,000 acres. It was completed at a cost of Rs.

558.00 lakhs in 1966 and was inaugurated by the Prime Minister Indira Gandhi. The forest dept. developed a deer park enroute the dam. The Kinnerasani sanctuary is a heaven of exotic wildlife and tourists enjoy their visit here by spotting several animals in their natural habitat. The staff and students enjoyed this trip and back with full of knowledge .

GOVERNMENT DEGREE COLLEGE, MAHABUBABAD
DEPARTMENT OF TELUGU
FIELD TRIP REPORT-2017-18

PLACE OF VISIT: RAILWAY STATION, MAHABUBABAD

Date:19.10.2017

A Report on FIELD VISIT at Railway Station, Mahabubabad For Telugu students Organized by DEPARTMENT OF `TELUGU, GDC , Mahabubabad RAILWAY STATION Site visit is considered as one of the tactical methods of teaching. The main reason behind this: it lets students to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim site visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness. Through site visit students are acquainted about new technologies and knowledge. This visit was planned as part of curriculum requirement of the subject, and useful to communicate with the society. It was organized with the prior permission and guidance of honorable. Faculty members and students took great interest and made this visit a grand success.

Summary;

This visit helped students to enhance collective theory and practical knowledge how to fill the reservation form, ticket booking , maintenance of signaling office , Railway security, canteen etc.,They identified how the Railway Station is maintained and how the workers keep the station clean and sanitized. The officials checking the temperature of the passengers and not allowing the passengers with o. This visit will also improve their fundamental concepts and practical aspects. Physical observation of various departments in Railway station will definitely be enhanced the skill and understanding of students .this visit is very useful to the students . Students participated very actively and made this field trip very successful.

B.VENKATESHWARLU

LECTURER IN ZOOLOGY

Academic Year 2020-2021

PLACE OF VISIT: FISH MARKET MAHABUBABAD TOWN

Date: 19.01.2021

A Report on FIELD VISIT on 19-01-2021 for Zoology **Fish market Mahabubabad town** to students Organized by DEPARTMENT OF ZOOLOGY, GDMahabubabad.

Field Visit is considered as one of the practical methods of teaching.

The main reason behind this is that, it lets students to know things practically through interaction, working methods and employment practices.

Moreover, it gives exposure from academic point of view. Main aim site visit is to provide an exposure to students about practical working environment knowing about the Fins and scales of fishes.

Fish Market management also provide students a good opportunity to gain full awareness on Fins and scales of Fishes. Through site visit students are acquainted about new ideas and knowledge.

This visit was planned as part of curriculum requirement of the subject, and useful to communicate with society. It was organized with the prior permission of our Principal.
