

Title of The activity: e-Quiz
Title of the topic: Diseases caused by Microorganisms
Organizers: Departments of Zoology and Botany
Date: 21-08-2020
No. of staff members involved: 02 - P. Sreelatha, Asst. Prof. of Zoology – Convener
D. Thirupathi, Lecturer in Botany – Co-convener

Online Platform: Google Forms
Objectives: To encourage the students to look beyond the textual knowledge
Establish a relationship between theory and application
Expand one's knowledge in a specific area and improve G.K.

Report:

An e- Quiz was conducted on the topic “Diseases caused by microorganisms” in human by the department of Zoology which was opened on 21-08-2020. 25 questions based on multiple choices relating to human diseases caused by microbes were given. Responses (25) received from students of various colleges. Analysis of responses question wise was done and a copy of publish analytics was recorded.

E-Quiz on Disinfectants and Antiseptics

organisms

* Required

1. Email address *

2. Name of the Candidate *

3. College Name and Address *

4. Designation *

Mark only one oval.

Faculty

Students

Others

5. Mobile Number

6. Which of the following diseases are caused due to a virus:

Mark only one oval.

- Ebola
- AIDS
- SARS
- All the above

7. TETANUS is caused by

Mark only one oval.

- Bacteria
- Virus
- Protozoa
- Fungi

8. causative pathogen of TB (Tuberculosis)

Mark only one oval.

- Mycobactirum leprae
- Mycobacterium tuberculosis
- Mycobacterium africanum
- Mycobacterium cannetti

9. Which insect vector act as carrier for Plague

Mark only one oval.

- Musquito
- Rat flea
- Tse-tse fly
- Bed bug

10. Cholera spreads by which method of transmission

Mark only one oval.

- Innoculation
- Touching
- Contamination
- Coughing

11. Which of the following is caused by food poisoning

Mark only one oval.

- Malaria
- Filariasis
- Scabis
- Botulism

12. Which is a severe water-borne diarrheal disease

Mark only one oval.

- Tetanus
- Anthrax
- ChickunGunya
- Cholera

13. H1N1 virus causes

Mark only one oval.

- Swine Flu
- Amoebiasis
- Common Cold
- Yellow fever

14. This disease is caused by a nematod

Mark only one oval.

- Leprocy
- Filariasis
- Poliomyelitis
- Amoebiasis

15. Tikka disease of ground nut is caused by

Mark only one oval.

- Colletotrichum fulcatum
- Cercospora personate
- Phytophthora infestance
- Puccinia graminis

16. Red rot of sugar cane is caused by

Mark only one oval.

- Claviceps purpurea
- Puccinia graminis
- Alternaria solani
- Colletotrichum falcatum

17. Which fungal disease is spread by seed and flowers

Mark only one oval.

- Loose smut of wheat
- Corn smut
- Covered smut of Barley
- Soft rot of potato

18. Syphilis, a sexually transmitted disease is caused by

Mark only one oval.

- Vibrio
- Leptospira
- Treponema pallidum
- Pasteurella

19. entamoeba gingivalis found in the buccal cavity of man causes

Mark only one oval.

- No disease
- Pyrrhoea
- Bronchytis
- Dyseatery

20. the malignant tertian malaria is caused by

Mark only one oval.

- Plasmodium malariae
- Plasmodium ovale
- Plasmodium falsiparum
- Plasmodium vivax

21. Bacterial blight of Rice disease of plant is caused due to which bacteria?

Mark only one oval.

- Pseudomonas bacteria
- Xanthomonas citri bacteria
- Xanthomonas oryzae bacteria
- None of the above

22. Name the disease of plant in which large yellow spots appear on the leaves.

Mark only one oval.

- Bacterial Blight
- Bacterial Spot
- Aphids
- Botrytis

23. Which of the following is a symptom of viral infections?

Mark only one oval.

- Mosaic leaf or fruit yellowing
- Spore formation
- Abnormal growths
- Oozing

24. Which is not a Bacterial disease symptom

Mark only one oval.

- Leaf spot with yellow halo
- Fruit spot
- Canker
- Plant stunting

25. How are infectious diseases, such as colds and influenza, most commonly spread?

Mark only one oval.

- Breathing viruses in air
- Eating contaminated food
- Drinking infected water
- Hand-to-face contact
