12/03/2020

Department of Zoology in association with NSS unit of the college has organised an awareness program on COVID-19 in the college premises and educated the students and staff about the pandemic Corona disease.

Head, department of zoology Smt P. Sreelatha taught the gathering about the novel corona virus disease - COVID-19 through a power point presentation and by playing a video on sars corona disease.

This is an infectious disease caused by a new virus that had not been previously identified in humans - WHO declared it as a pandemic disease. The virus causes respiratory illness with symptoms such as cough, fever and in more severe cases pneumonia. Currently there is no vaccine but it can be prevented by washing hands frequently with alcohol based soap, by avoiding touching the face and close contact with the persons with cold and flu like symptoms (not within the radius of 6 feet) etc. Its incubation period differs basing on the immunity level i.e. 2-14 days. No FDA approved medicine for this but only treated by supportive medication, rest, fluids etc. and infected persons are advised to stay back at homes till the complete recovery.

Students, as a part of NSS Summer camp have conducted a door to door campaign on COVID-19 at the adopted village Barobadithanda near the college. Principal, Vice principal, NSS Co-ordinator, other teaching and non-teaching staff have participated in the program.
