

BEST PRACTICES

BEST PRACTICE -1

1. TITLE OF THE PRACTICE: Optimum use of online platform.

2. GOAL: 1. To fill the void created by COVID-19.

2. To keep the teachers and learners abreast with the teaching-learning process.

3. THE CONTEXT: As the pandemic wretched havoc on people across the globe, our institution was no exception. In order to keep the teaching-learning community abreast with the ever changing world, it was not possible to conduct regular off line classes. Hence, online platforms (like zoom, paid version of google meet, google class room, etc.) were used to optimum effect for the betterment of teaching-learning process.

4. THE PRACTICE: A series of webinars was conducted by inviting famous personalities across the nation to sensitise students about issues of prominence. A one week online SIP (Student Induction Programme) was conducted for freshers to create awareness on human values and ethics, gender sensitisation, ICT tools, facilities available in the college, seminars and student study projects, etc. Classes were regularly conducted with vigour and verve all the classes were uploaded in the you tube for further reference of the students.

5. EVIDENCE OF SUCCESS: Faculty and students became familiar with online platforms and expertised in usage of ICT tools.

6. PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED: Network issues, data issues were encountered. Wi-fi connection and online platform were required.

BEST PRACTICE -2

1. TITLE OF THE PRACTICE: Free Covid testing and free vaccination drive.

2. GOAL: 1. To create awareness among the fraternity about COVID-19.

2. To avoid the spread of corona virus.

3. To reduce the number of covid cases by vaccination.

3. THE CONTEXT: As the pandemic wretched havoc on people across the globe, our institution was no exception. In order to keep the faculty, students and community members safe from the clutches of corona virus, the institution had taken up the responsibility of free covid testing and vaccination drive.

4. THE PRACTICE: All the faculty and some of their family members were tested freely and given isolation instructions. Faculty and students were also freely vaccinated.

5. EVIDENCE OF SUCCESS: Faculty and students became familiar with online platforms and expertised in usage of ICT tools.

6. PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED: As a result of testing and instructions of isolation, the institution could resist the spread of the pandemic.

Medical staff, Testing kits, Vaccines were the resources required. Owing to various reasons, some of the students could not utilise the opportunity.
