## Government Degree College

Mahabubabad - 506 101

Mahabubabad District, Telangana State

Re-accredited with NAAC "B" grade with CGPA 2.44

Affiliated to Kakatiya University, Warangal

**Advantages of the choice based credit system:**

- Shift in focus from the teacher-centric to student-centric education.
- Student may undertake as many credits as they can cope with (without repeating all courses in a given semester if they fail in one/more courses).
- CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and more flexibility for students).

CBCS makes education broad-based and at par with global standards. One can take credits by combining unique combinations. For example, Physics with Economics, Microbiology with Chemistry or Environment Science etc.

- CBCS offers flexibility for students to study at different times and at different institutions to complete one course (ease mobility of students). Credits earned at one institution can be transferred. Disadvantages:
  - Difficult to estimate the exact marks
  - Workload of teachers may fluctuate
  - Demand good infrastructure for dissemination of education CHOICE BASED CREDIT SYSTEM (CBCS): The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses.

The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system.

Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA).

**Outline of Choice Based Credit System:**

1. Core Course: A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
2. Elective Course: Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

2.1 Discipline Specific Elective (DSE) Course: Elective courses may be offered by the main discipline/subject of study referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).

2.2 Dissertation/Project: An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.

2.3 Generic Elective (GE) Course: An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective. P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.

3. Ability Enhancement Courses (AEC): The Ability Enhancement (AE) Courses may be of two kinds: Ability Enhancement Compulsory Courses (AECC) and Skill Enhancement Courses (SEC). “AECC” courses are the courses based upon the content that leads to Knowledge enhancement; i. Environmental Science and ii. English/MIL Communication. These are mandatory for all disciplines. SEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.

3.1 Ability Enhancement Compulsory Courses (AECC): Environmental Science, English Communication/MIL Communication.

3.2 Skill Enhancement Courses (SEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge. \* Introducing Research Component in Under-Graduate Courses Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

## BRIEF REPORT OF WEBINAR

### **“Role of Algae and Cyanobacteria in Human Welfare”**

On 26th June 2021 at 11.10 am.

Google Meet: <https://meet.google.com/kus-swjk-gmz>

YouTube Live: <https://youtu.be/ax-w5v9yGJk>

National Webinar on “**Role of Algae and Cyanobacteria in Human Welfare**” A One-day online web nor Current Status & Future Challenges is organized by Department of Botany, Government Degree College Mahabubabad. This Webinar Algae and cyanobacteria focus on latest advances and cutting-edge research in the field of Phycology of Botany. This Webinar will bring together the experts, Researchers, Academicians, students and provides a wide platform to exchange the ideas, expertise, and information to strengthen their research activities and invited speaker **Prof. M. Aruna**, Head Department of Botany Telangana University Nizamabad Telangana state. and Second Speaker **Prof. Mukesh Kumar** Professor Department of Botany & Microbiology GurukulaKangri University, Haridwar- 249404 Uttarakhand.

In the beginning of the webinar **Prof. M. Aruna, Head Department of Botany Telangana University Nizamabad Telangana state**. She illustrated Webinar Algae and cyanobacteria focus on latest advances and cutting-edge research in the field of Phycology. She addressed the Algal benefits and role of algae in human welfare that are beneficial for the people of the State, as they are ambassadors they should take initiative to spread science & technology among the students and the society and council can help in doing so.

After that Prof. Mukesh Kumar Professor Department of Botany & Microbiology gave a presentation on the various benefits of Cyanobacteria and also introduced about the importance of Information Technology in education and other sectors like Industries, health care, security, communication, employment, rural development,

The Webinar was ended by Vote of Thanks given by Dr. T.Ugandhar Principal (FAC). In the webinar from Telangana State 229 Scientists, Teachers, Students, Academicians and Researchers participated,

**GOVERNMENT DEGREE COLLEGE  
MAHABUBABAD -506101 (T.S.)**

**NATIONAL WEBINAR ON  
"ROLE OF ALGAE AND CYANOBACTERIA  
IN HUMAN WELFARE"** Organised by Dept. of Botany

**Date:**  
**26-06-2021**

**Starts from 11:00 am onwards**

**Prof. M. ARUNA**  
Department of Botany  
Dean Faculty of Science & Computer Sciences  
Telangana University, T.S  
Topic: ROLE OF ALGAE IN HUMAN  
WELFARE  
Time: 11:10 am to 11:55 am

**Prof. MUKESH KUMAR**  
Department of Botany & Microbiology,  
Gurukul Kangri University, Haridwar,  
Uttarakhand  
Topic: ALGAE AND CYANOBACTERIA  
IN RELATION TO HUMAN  
WELFARE  
Time: 12:00 Pm to 12:50 pm

**Dr. T. Ugandhar**  
Principal (FAC) &  
Convener

**R. Venu Gopal**  
Asst. Prof of  
Physics  
IQAC Co-ordinator

**P. Ram Reddy**  
Lect. in English  
Co-Convenor

**Ch. Mallesham**  
Librarian  
Co-Convenor

**G. Shashikanth**  
Physical Director  
Co-Convenor

**ORGANIZING COMMITTEE**

1. *V. Rajendar, Lect. In Pol. Science*
2. *R. Ratnamala, Lect. In Telugu*
3. *Dr. R. Venkatajam, Lect. In History*
4. *N. Ramachandram, Lect. In Economics*
5. *L. Santhosh Reddy, Lect. In Comp. App (Part time)*
6. *G. Ravi Teja, Lect. In Commerce (Part time)*
7. *D.S. Ramanna, TSKC Mentor*

**ADVISORY COMMITTEE**

1. *Dr. V. Mamatha, Lect. In Hindi*
2. *D. Raju, Asst Prof of Commerce*
3. *B. Venkateshwari, Lect. In Zoology*

**E-Certificates will be issued after  
submission of Feedback form**

### ANCIENT MONUMENTS

- Algal growth and sandstone porosity are two important aspects that may affect biological growths.
- Pore volume controls the amount of water which can be held by a sandstone
- Pore size controls water availability and the space inside the stone which is available for colonization.

**BRIEF REPORT OF WEBINAR**  
**National Webinar On**  
**SNAKE RESCUE AND CONSERVATION**  
**Organized**  
**by**  
**Department of Life science**  
**Date: on 23rd April 2021 at 11 am.**

National Webinar on **SNAKE RESCUE AND CONSERVATION** A One day online webinarCurrent Status & Future Challenges is organized by Department of Life Science (Both Botany & Zoology) Government Degree College Mahabubabad. This **SNAKE RESCUE AND CONSERVATION** Webinar focus on latest advances and cutting-edge research in the field of Biology. This Webinar will bring together the experts, Researchers, Academicians, students and provides a wide platform to exchange the ideas, expertise, and information to strengthen their research activities and invited speaker **Dr B. Sadasivaiah Assistant Prof of Botany Dr. BRR Govt Degree College, Jadcherla Mahbubnagar**

The Webinar was ended by Vote of Thanks given by Dr. T. Ugandhar Principal (FAC). In the webinar from Telangana State 200 Scientists, Teachers, Students, Academicians and Researchers participated.

**Total : 200**  
**Research Scholars : 60**  
**Scientist:20**  
**Teaching Faculty:30**  
**Student: 110**

A screenshot of a Microsoft PowerPoint presentation slide titled "Is it Venomous or Non venomous bite?". The slide displays several images: a close-up of a bite mark, a diagram of a snake's fangs, a hand holding a small snake, and a person's arm with a bite mark. The slide is part of a larger presentation with other slides visible on the left.

A screenshot of a Microsoft PowerPoint presentation slide titled "Viperidae". The slide lists the following characteristics: ➤ Viviparous, ➤ Venomous, ➤ India - 24, and ➤ TS - 3. To the right of the text is a photograph of a man in a green shirt and blue jeans holding a white snake. The slide is part of a larger presentation with other slides visible on the left.

EDUCATION

➤ Normally the boys are educated at the best institutions whereas the girls are educated in institutions where the fees are less.

➤ The boys are encouraged to opt for Science, whereas girls are normally pushed towards the Arts faculty.

➤ Girls aren't given enough freedom to choose their careers.

➤ Researches prove that gender bias is also observed in schools.

Principal KGC, HNK

Dear All,

Greetings from Government Degree College Mahabubabad Collaboration with  
Government College Hanamkonda

Hope you are hale and hearts

GDC Mahabubabad Collaboration with Government College Hanamkonda

Are pleased to inform you that National Webinar on "**ROLE OF SCIENCE IN HUMAN WALFARE**" will be organized by both Institutions.

The webinar is scheduled to be on 28th Feb 2022 and shall begin at 10:30 a.m.

**STEPS TO JOIN IN THE WEBINAR:**

- Participants will be automatically included in the WhatsApp group once they click the WhatsApp related link mentioned below to join the group for successful registration of the webinar.
- Mode of Event – Online – Using Goole Meet.
- Participants must Download Goole Meet from Google Play Store.
- Click the link to join the webinar at the specified Date and Time

Note:

- ¥ All the participants are requested to join the webinar 10 minutes before the specified time
- ¥ Participants of the webinar will be awarded with E-Certificate after submission of Feed Back form

➤ Date: 28 -02-2022 Time: 10:30 a.m. on the Eve of Science Day

#### **Resource Persons Key:**

Word Eminent Speaker - on 11.00AM Topic: **Importance of Science**

Prof. N. Rama Swamy Professor (Retd.) of Biotechnology & Former Principal Kakatiya University Warangal.

#### **Session-I**

Topic: **Importance of Science**

##### **Professor N. Rama Swamy sir**

Everyone who is knowledgeable about biotechnology and its applications on earth with the support of science to preserve the natural world and how to live on earth in a way that is both safe and healthy will discover Prof. Rama Swamy sir's presentation to be extremely beneficial.

The importance of science lies in the fact that it has an impact on the majority of elements that make up day-to-day life. These elements include food, energy, medicine, transportation, leisure activities, and more. The advancement of scientific knowledge has a positive impact on every aspect of human life, from the mundane to the existential.

The applications of scientific knowledge in people's everyday lives are plentiful and varied, and they are not limited to the pervasive technology that people use constantly. An awareness of solar radiation can prevent a painful sunburn, an understanding of inertia is an important part of safe driving, and having a firm grasp on number theory and statistics can save you money on lottery tickets. In addition to these more pedestrian applications, internalising the scientific method as a regular mental tool helps maintain composure when exaggerated crime statistics are quoted in the media. The scepticism and demand for evidence helps to protect its practitioners from dishonest people who ask for money, favours, or votes. While the openness to novel concepts encourages exploration and discovery, the demand for evidence helps to foster scepticism.

Additionally, science has the power to reassure its followers and inspire them to act in ethical ways. The current understanding of genetics, for instance, is what led to the discovery of how closely related all humans actually are to one another. Science has elevated the human spirit

by revealing previously unknown truths to its students and inspiring them to perform feats of technical brilliance.

### **Speaker-II**

Dr. Rajashekhar Omprakash Patil Topic: Everyday Science

Prof. of Environmental Science Sant Gadge Maharaj College of Commerce & Economics

Khetwadi Mumbai-400004

### **Session: II**

**Prof. Prof. Rajashekhar O. Patil Topic Environment Now & Then HOD Environmental Studies, Sant Gadge Maharaj College of Commerce Mumbai-400 004.**

### **Topic: Everyday Science**

In the beginning of the webinar **Prof. Rajashekhar O. Patil**.

Everyone who is knowledgeable about how to live on earth with the support of science in order to preserve creation and the environment in the future will find his presentation to be very helpful. He does well of explaining the scientific concepts listed below.

The application of science in everyday life is not limited to simple tasks such as cooking or boiling water; rather, it also includes the massive industrial setups that produce a variety of goods by utilizing a variety of chemical reactions and is also a part of our everyday life. From the application of fertilizer's in farming to the skin cream that we used to confirm the pervasiveness and applications of science in everyday life, there is no denying that science is present in all aspects of our lives.

The subfield of science known as chemistry, in particular, is responsible for an important function. It can not only explain how the brain works, but it can also forecast how the weather will behave. In the meantime, chemical engineers have developed methods for scaling up chemical reactions for commercial purposes by using the laws and principles of chemistry to design the processes. The chemistry of atoms and molecules is the foundation for the manufacture of a wide variety of products, including fertilisers, superconducting ceramics, petroleum products, solvents, polymers, soaps, and detergents, among other things.

As a result, the applications of chemistry in everyday life and the significance of it is an essential component that enhances every aspect of human life. In addition, as we continue to make advancements, the addition of new dimensions to our knowledge of chemistry will direct us in the production of new devices and chemicals that are even more effective than those that are currently available.

**Chairpersons****Dr. V. Vijaya Lakshmi Principal GDC Mahabubabad**

Dr. K. Mallesham Principal KGC Manikonda.

**Convener-I****Dr. Dr. T. Ugandhar**

## Photos of National Webinar on Role of Science in Human Welfare

We would like to take this opportunity to express we sincere appreciation and devotion to Dr. N. Rama Swamy, Professor in the Department of Botany at Kakatiya University in Warangal, for providing me with direction that was informative, helpful, and motivational. In particular, I would like to thank him for his guidance in the area of botany. Because of Dr. V. Vijaya Laxmi's constant support and encouragement, I was able to complete this project with flying colours, and I would like to express my gratitude to her for that. Our college Principal is Dr. V. Vijaya Laxmi. Her assistance and support all throughout this time will be something that I will never forget.

My deepest gratitude goes out to the Co-Convenors for their assistance in the completion of this webinar in their computer skills in order to continue in google meet and also for their assistance in the preparation of an online certificate for those participants who filled out a feedback form and sent it directly to me. I wish to express my deep appreciation to My most sincere gratitude goes out to the Co-Convenors for their assistance in putting together this webinar using their computer skills so that Google can continue to operate.

## WORLD CANCERS DAY

To create awareness about cancer, we conducted national webinar for which **Dr. Prathapa Reddy** was a resource person. He talked about ways and means of cancer and asked the students to practice Yoga and meditatioan. He asked students to give up fast foods. He guided them about free cancer treatment hospitals. Over 100 students 15 lecturers participated in the webinar

**Total : 110**  
**Research Scholars : 30**  
**Teaching Faculty:10**  
**Student: 70**
