

Tara Government College Sangareddy

(Autonomous)

Accredited 'B' by NAAC

(An ISO 9001: 2015 certified college)

Energy management policy

Introduction

Energy management is an important aspect of our college. To guide our stakeholders in implementation of our goals, we have devised this policy.

Rationale behind the policy is to

Raison d'être

- ❖ To minimise usage of energy.
- ❖ To gradually shift to non-conventional resources such as solar for energy requirements
- ❖ To conduct sensitisation activities

Energy Management Policy

- ❖ Tara Government College, Sangareddy (A) has devised its own Energy Management Policy by duly honouring standard policies that are practiced by the Government of Telangana and Government of India. Energy management is one of the most important parts of our policy. The college shall strive to consume less energy and will contribute positively to the environment.
- ❖ The following are the salient features of the policy
- ❖ This policy honours and follows the e – waste guidelines forwarded to the college by CCE.
- ❖ While purchasing Power consuming tools and equipment, care will be

taken to see that they consume less power. For instance, fans with 5-star rating will be purchased.

- ❖ The college has already replaced high power consuming tubes, bulbs and fans with energy efficient LED bulbs and less power consuming fans.
- ❖ Computers and other gadgets will be purchased that consume less power.
- ❖ Sensitisation to the stakeholders about the usage of all electric equipment, both in labs and elsewhere will be conducted.
- ❖ Our computer, TSKC and other labs shall display notices in the labs in this regard.
- ❖ Initiatives for the installation of solar plants for energy requirements will be done.
- ❖ The purchase of high energy consuming equipment like A.C. will be discouraged. Since most of the systems of the college are designed to work in Indian environment conditions, the usage of already existing A.C.s will be discouraged unless in harsh conditions such as harsh summers.
