Mentor and Mentee Counselling

Introduction:

Mentor and Mentee Counselling is an effective method to keep track of the development of every student. The principal divides all the available students to the lecturers and they are responsible for keeping the track of the development, problems, and issues of the students and provide them with available and amicable solutions to pave the best path to their academic development.

As I am also the Principal (FAC), and as I have to keep the track of all the students, I have not taken this responsibility, but continued to monitor the system running smoothly in the college by my colleagues.
