Introduction:

It is believed that a good faculty not only teaches in the college but influences the society by his teachings in one way or other. Keeping this in view, I have conducted almost 9 International Quizzes online through Google Forms.

International Quizzes:

I intended to conduct the National online quizzes, but, as English is an International Language, the students of not only India, but also from other countries have actively participated and acquired certificates. It has brought recognition not only to me but also to our college. Thanks to the Google for providing such an opportunity to me.
