25/02/2021

Agenda of Mentor Mentee Meet.

As per the above stated agenda, we could gather BA-1 Year students in their classroom, discussed about their general issues, Pandemic / covid disturbance in their families, their parents' occupations, details of siblings etc. Most of the students expressed their grief about the pandemic and also expressed that due to poor connectivity or interest, they could not attend online classes. They also stated that pandemic disturbed their personal life as well as edup. as they are unable to understand the subjects. They were happy with physical classes but fear of covid was within them, so attendance was bit irregular, instructed them to attend classes regularly without any fear and following pandemic etiquettes.
