

Awareness programme on Covid 19:

Date: 02-04-2021

Covid 19 pandemic has severely effected the people and economies across the globe. Since its spread was vast and quick, any number of measures initiated by the governments at various levels was not very effective. In view of this, the NSS of the college conducted an awareness programme to the staff and students as to the measures to be taken and the SOPS to be followed to control the spread of the pandemic. The idea was the students will in turn educate the others in the community about the same.

The programme was attended by all the staff and students and it was a grand success.
