

PRINCIPAL'S MESSAGE

Dr. NIKHAT ANJUM

We believe in providing quality education along with holistic growth of a student and aim to create a successful global citizen. The well qualified faculty at our college is quite professional and possesses expertise in individual fields and they strive hard to concentrate on each and every child, monitor & mentor them, appreciate their achievement and encourage them to overcome their shortcomings.

I believe that the learning is a continuous process and the rapid change in the use of technology opened new avenues of teaching and learning for all of us. I wish everyone to become successful in life with the values aligned. The growth of each individual student is our focus.

Education is based on the four pillars of “learning to be”, “learning to know each other”, “learning to do” and “learning to live & share together”.
