## QR CODING OF PLANTS OF GOVT. DEGREE COLLEGE, KAMAREDDY

QR codes(Short form-Quick Response) are bare codes that can be read by smart phone cameras.A QR code is unique to a web page. All plant pages have their own unique code.

Tagging plants with QR codes in college campus helps users acces the plant information instantly, which has earlier just limited to teachers and students of botany. It helps in knowing the local name, scientific name, use of the plants etc.
