A field-trip was conducted to "Metlabavi" on 27-4-2021 for B.A. students. But due to ~~Corona~~ the spread of Corona only few students were attended.

The historic stepwell was one of the architectural marvels of Kakatiya era, believed to be the swimming pool of Rani Rudrama Devi. It is also known as Metlabavi, Anantula Bavi.

The interiors that have granite rock pillars are similar to that of existing in 1000 pillars temple & the fort reflect the unique architecture of Kakatiya times.
