Action Taken Report

2017-18

For any HEI (Higher Education Institution) feedback forms a vital parameter to work upon, improvise and embrace change for good. Primary stakeholders know what they want from the institution. Parents express their views and opinions on the curriculum based on their expectations. Alumni have been of great source of feedback. They gave their insights taking cognisance of situation and peeping into future. Teachers are a great source of change. They are the ones who really interact with and impart curriculum. Their feedback is of great use for the ATR. All the stakeholders are also given choice to express their opinion in the last question. Internal Quality Assurance Cell (IQAC) of the college collected responses on curriculum from a. Parents b. Alumni c. Students d. Teachers. After analysing the feedback and discussing the feedback in the meetings that ensued, the Action Taken report was prepared. Action Taken Report is enclosed hereunder.

S.No.	Compilation of Suggestions given by stakeholders	Action Taken	Departments involved
