

Role - play (My vision for India)

Good morning to all!

Today I am going to play the role of our esteemed visionary personality of our beloved mother India and try my level best to express Mr. A.P.J. Abdul Kalam's ideas and visionary thoughts in front of you.

Dear students and viewers!

Today is a great day to put my warmful views in front of you about the significance of 'vision' in our lives.

First let me introduce the meaning of vision! It means a lot but shortly "vision" - "progressive thinking about future".

→ I had already kept in front of you about 1st vision: i.e. freedom, which started and successfully ended from 1857 to 1947. We are able to lead our lives respectively and freedomfully.

→ My second vision: i.e. for development through this period, we are struggling for self reliance and self-assured.

This second vision, Development² is continuing.
My dear students!

I have a third vision also, i.e. standing on the top of the world. For this, we shall keep the important thing in our mind "A strong person can respect the other strong person".

→ Don't keep the Negatives in minds about the media's false writings.

→ Be strong by planting the positive, amazing Success stories of India like —

a) we are the number one in remote sensing satellites.

b) we are first in milk production

c) we are first in wheat production

d) we are the second largest producer of rice.

→ So we all can gladly agree that India is a developed and self-sustained country now.

→ Hence, we all pled today not to wait for the government to do all!

→ So, we promise ourselves that every one can take part happily in changing the system of our neighbours, our village, our district and our country, consequently.

→ I finally call and invite all Indians to participate in change.
