

GOVERNMENT DEGREE COLLEGE, BELLAMPALLY
DISTRICT-MANCHERIAL, TELANGANA
DEPARTMENT OF BOTANY
A REPORT ON GROUP DISCUSSION (2020-21)

As a part of departmental annual curricular plan, the department organizes group discussions on various topics in the college. The main motive is to observe their personality, skills and ability to discuss the given subject and to suggest and guide them on how to take part in group discussions.

Objectives:

- To improve their knowledge of the given content through discussion
- To give an opportunity to combat with fear factor i.e. stage fear
- To connect with the audience and understand the concept of voice modulation
- Plays a vital role in personality development along with effective communication skills with distinct pronunciation and articulation

Generally these are arranged on content basis of the subject after the explanation in the regular class. The facilitator introduces the topic first then students are given some time to think and recall it and then allowed to form groups with self introduction. Later 10-15 minutes of time is given for discussion. Then the expresser or the group leader is invited to express their conclusion highlighting all the important points discussed by the group.

Observations - Out comes:

- Many participants participated with great interest but some were observed as passive
- participants
- It was observed that some participants though they have knowledge in the topic they
- were seemed to face some problem with expression and vocabulary
- As per the feedback of the students it helped them to understand and remember the topic very easily

At the end they are given some suggestions and hints.
