

Field Trip - Sericulture unit.

Department of Botany has organised a field trip to Sericulture unit at pandilla village of Husnabad mandal.

All B.Sc (B-2C) I, II & III yr students are participated in this field trip.

The owner of the sericulture unit Sri. S. Galush has clearly explained the process of silk rearing to the students. He showed his mulberry crop in 2 acres of land and the shed where silk cocoons are reared. He also explained the amount invested, loan facilities expenditure and the average profits of the unit.

This trip has facilitated the students to learn about the sericulture. It has boosted the confidence of the students in developing their entrepreneurial skills.

Botany Lecturer :- Dr. E. Komala S/S
