

Government Degree College, Husnabad

Academic Year 2020-2021

Field visits

General Objectives of Field visits:

Acquire useful application of the “inquiry based learning approach” where data and information are converted into useful knowledge – developing a case study of various natural landforms in Sabah e.g. Poring Hot Springs, Mt Kinabalu etc

Develop “technical competency” by observing, collecting, interpreting, recording and evaluating geographic information from primary sources through fieldwork. E.g. water testing at Mangrove Habitat

Collect specific examples that will substantiate generic explanations of processes and landforms in physical geography.

Provide valuable qualitative and affective learning experiences which will encourage deeper thinking about the interaction between man and his environment. E.g. Conservation Area for Fishing

To train art students in observation skills through drawings.

To create an appreciation of nature in art students.

To be exposed to the cultures and way of life of different groups of people and to be humble and respectful their interaction.

To experience first-hand the following NE message:

Singapore is our homeland; this is where we belong – through interaction with locals in Sabah, students will also treasure their heritage and take pride in shaping their own unique way of life

Specific Objective of the filed visit:

Students has learnt about the functioning of the Reverse osmosis plant.

List of Participants

B.Sc Students

- 1 Bandi Ashok
- 2 Bonagiri Soumya
- 3 Kanukula Rajitha
- 4 Katthula Vankatesh
- 5 Marupaka Srivennala
- 6 Nakka Naresh
- 7 Neela Chithanya
- 8 Pendala Rajender
- 9 Pittala Saiprasanna
- 10 Vangala Divya
- 11 Velupula Kistapal
