OUTREACH PROGRAM TO ANNAM SEVA FOUNDATION

An outreach program aims to help, uplift and support those who are deprived of certain services and rights. It involves giving learning, social planning, health support and other projects for their welfare.

As usual a program must be organized to use resources and aid to fulfill a goal. Successful community outreach programs must have project leaders at their core. They take charge of promoting searching for donors and volunteers and recording details about the outreach. Planning programs for the community can help solve a greater need hands to plan and source out more assets and means to create more long-term solutions and voluntary efforts.

Outreach programs sensitize students towards their duties and responsibilities within the society and community. It also serves the citizenship training goal of education through the development of various skills like soft skills and team-building skills. Most importantly the aspiring teachers become aware, compassionate and benevolent citizens who believe in the larger good of society.

Our outreach activities truly help us move closer to our vision and mission of nurturing teacher professionals with positive attitudes and values who excel in teaching learning and research and who can serve as catalysts to create a just and caring society.

At ANNAM SEVA Foundation lately the outreach work has been integrated within the timetable and runs throughout the year. The key idea behind this practice was to provide opportunities to student –teachers to engage with our partner organizations for longer durations to make a real difference. For this, the extension department has collaborated with NGOs like ANNAM Foundation.
