

Extension lecture on
Hydroxy Compounds by Jagram
Assst. prof of chemistry, GDC Adilabad
(on duty basis)

Name of the Resource Person : Rani A

Designation & Address : Asst Professor of Chemistry
GDC, Kamareddy

Signature : 

Topic of the Extension Lecture : Carbohydrates

Gist of the Topic : Classification and nomenclature -
classification into mono, oligo and poly saccharides, into Pentoses
hexoses etc. into aldoses and ketoses. 1

Mono saccharides : All discussion to be confined to (+) Glucose as
an example of aldohexoses and (-) Fructose as example of
ketohexoses. Chemical Properties and structural elucidation

I/c Dept of Chemistry
