

GOVT.DEGREE COLLEGE-NARAYANPET

36) Details of water conservation facilities available in the institution

Rain Water Harvesting Pit:

The College has Rain Harvesting Pit where the rain water percolates into the ground. To increase the rainfall and to maintain the water cycle in the ecosystem, tree plantation programmes are adopted regularly.

As part of the Telangana Haritha Haram Program, the staff and students under the NSS banner planted large number of saplings in the college premises to enhance the green coverage which ensures the sustainable environment.

Re-use of Water System: The college campus has a drinking water tank where in the water wasted is used for watering plants through pipes. The college has 01 Borewell for water supply. Water from the Bore well is pumped to the over head tanks through pumps. The water from overhead tank is distributed to all taps across the campus. The maintenance of plumbing system is outsourced. Whenever the problems are identified immediate actions are taken for restrict wastage of water. Then plumbers are outsourced to fix the problem.
