## Group Discussion

This is a novel type of engaging the students during their leisure hours and to inculcate a sense of affiliation among them. Generally, the topics were of subject and a few belonged to General Science, Mathematics and Statistics. Always they were monitored by a student leader and possibly with the assistance of faculty member. Because of the varied opinions expressed by different students, all the participants used to get much information and wide exposure. This also helped the students to move in a group and made them to realize the importance of team work. They also helped them to acquire leadership qualities and ability of substantiating their statements.

## Assignments

To inculcate the study culture among the students, assignments were given periodically. An assignment makes the students to read and write the subject in a detailed way. It enables the students to have knowledge of the subject.

A number of assignments are given in each class.

## Remedial coaching

The faculty of department of Mathematics conducted several remedial coaching classes to the average and below average students. Marks scored by the students in the Telangana University exams were taken as criteria in the selection of the students for these classes. Internal tests conducted by the department were also taken into consideration for listing the students for remedial classes.

Important topics were explained to these students. Material was provided and needed guidance was given to these students. Even the good students sometimes attended these classes.

### Remedial Classes:
