

Plantation Programme 2020-21

Eco club under Dept. of Botany Organized a continuous tree plantation programme throughout the year in college surrounds.

All the students and staff participated in this program. Staff members guided students how to plant a sapling properly. The aim of the program is to plant large number of plant saplings in college open space.

Principal G. Paramesh gaur gave a passionate speech on importance of plantation. Following are the plant species used in plantation: Bauhinia, Badam, Nerium, Neem, Mango, Kanuga, Peltocorrum, Mahagani, Sisso etc.
