3-day online workshop

“EMERGING APPLICATIONS OF ICT TOOLS IN HIGHER EDUCATION”

Introduction:

Information and communications technology (ICT) is that is used many field including education. It combines the technology and its tools for teaching and learning with the involvement of audiovisual and IT. ICT and its applications enable new ways of teaching and learning. ICT has an impact not only on what students should learn, but it also plays a major role on how the students should learn i.e ICT supports, enhance, and optimise and immerse the student completely towards the subject. Now a days all the fields of society are moving to the digital way. The MHRD, India also initiated the various platforms to learn the subject across the world via internet by self-pace learning. Among them are SWAYAM, MOOCS, NPTEL, CEC UGC etc. Apart from the government initiations private universities and other organizations also introduced the online courses for example. Edx, biotechnika, udemy, unacademy etc.

Covid -19 is viral disease caused by the corona virus and spreads as air borne infection. It has emerged as a new communicable disease in the world. It was reported in China for the first time during November 2019. From there it is spread to the whole world. The cases of Covid-19 has been increasing drastically day by day and it has effected every field including the education. Covid-19 effected the industries, markets, transportation and so on.

But Covid-19 enhanced the usage of ICT tools in teaching as well as IT fields particularly higher educaitions. In this scenario many teachers were instructed to conduct the online classes via online platforms by respective authorities. The teachers also adopted to the emerging technology in teaching to cater the students. Apart from this various National, State Universities also organized various Orientation, Refresher courses and Faculty Development Programs (FDP). Even more tools for online teaching are evolving like virtual labs, Augmented Reality (AR) and Virtual Reality (VR). These technologies not only reduces the financial burden on higher educational institutions but also empowers the students and teachers with new tools in the labs.

These technologies assists the teacher for effective communication and teaching but not replaces. Technology assisted teaching is next generation education to be adopted wisely effectively. In the learning process workshops and symposia are to be conducted to enrich the teachers with such technology. With this background the Department of Microbiology, Government Degree College,

Gajwel, Siddipet District, Telangana state organized a 3 day online workshop on “**EMERGING APPLICATIONS OF ICT TOOLS IN HIGHER EDUCATION**” during 11-13 June 2020.

Objectives:

- To introduce the new ICT tools to the participants (Teachers and students) which helps in teaching
- Effective preparation of PPT for classroom teaching and professional development
- Use of ICT tools for teaching in classroom
- To give Introduction about the virtual labs and their usage in classroom

Mr.	M. Gunakar	Assistant Professor of Zoology	Govt. Degree College (A), Siddipet	Telangana	5	5	5	Yes	5	<p>I am very much pleased and honoured to be one of the participants of this very informative 3 day online workshop . All the three sessions are very much informative and useful. What ever I have learnt from this workshop, definitely I will try to use them in my future online classes with the students. I am sure, I will make my online classes more effective and beneficial to my students.</p> <p>I would like to inform you that I have already started using the knowledge that I have learnt from this productive workshop. I have downloaded the app 'PLANTIX' suggested by the resource person Dr. N. Harikrishna garu and used the app to identify the pests that are causing harm to the home garden plants. App suggested me the solution also for the plant disease.</p> <p>I would like to thank and congratulate the entire team both front and back end, which has made us more enlightened about various aspects of ICT</p>
