BEST PRACTICES - 2021-2022

Name of The Best Practice: Illustration Method Applying for Teaching.

The main objectives of this method is to simplify the way to present the topic by drawing something on the board. "A picture is worth a thousand words" the popular saying deriving from Chinese philosopher Confucius, conveys the significance of visual art and imagery.

Hence, I take this method to teach in the class room to make clear the doubt, which arises, while class will be going on.

Goal: This Illustration Method is applied in every year in the class room. This method can help the students to understand the topic very very easily and also inspire the students to bring out innate talent i.e., drawing of some picture. I use this technique to teach the topic of "Preposition".

The Practice: In each and every year I use to teach this "Best Practice" to Bring Best Results.

Evidence of Success: Students can get good marks especially from the topic "Preposition" and some students can improve some interest to draw some sketches and paintings. For Instance, Goli Naveen I year student from (MPCS) Group and MD. Meha II year student from B.Sc(BZC) have improved some taste to draw some sketcher or paint some paintings.
