Report On Remedial Classes 2018-2019

The remedial classes envisions to support weak learners in different subjects and provides them more focused teaching support to enhance their qualitative and quantitative subject knowledge, academic skills and linguistic proficiency. The main facets of remedial classes carried out are special classes, exact screening and repeated exams. These strategies have facilitated us to upraise our pass percentage to a great extent.

In this academic year the college had intentional to organize remedial class from the start of the July itself. Decision was taken by the college to prioritize students who lost one or two papers in the previous semesters. Week students are identified by the tutors on the basis of their performance in the internal exams. Even though the hours that we kept aside for remedial were limited, the department has done it efficiently. The following is a brief report on student participation, faculty engaged with the programme, hours of remedial coaching conducted in the academic year 2018-19.

All together a total of 23 students got the benefit of remedial teaching in this academic year in Semester I. The exam-oriented training and repeated tests made the students overcome their learning difficulties. Moreover, the student teacher interaction was more live in remedial class hours than in regular classes. The duration of classes was usually not more than an hour and a total of 11 hours of remedial classes were conducted.

Sept 25th,
26th

Framing Questions:- We ask questions to seek information, to get confirmation and to choose between alternatives.

Kinds of Questions:-

- a) Information questions:- begin with 'Who', 'What', 'Where', 'How', 'How much' etc. called question words. These questions can't be answered with 'Yes' or 'No'. Some information is given in response.
- b) 'Yes' or 'No' Questions. The response to such questions may be affirmative 'Yes' or Negative (NO) but should be all affirmative or all negative.
- c) Alternative questions. Answered with 'Yes' or 'No' a full sentence is needed as an answer.
- d) Tag Questions. The question tag at the end draws attention to the statement that precedes it. They are not actually questions, they only expect agreement. Tag questions are usually used only in conversation & not in formal English.

Sept 27 Voice :- Voice describes the relationship between
 28. the verb and the subject. When the subject is the
 the doer of the action, the verb is in the
active voice. When the subject is the receiver of the
 action, the verb is said to be in the passive voice
 Eg:- We held ^{verb} a discussion on an important
 Subject doer. topic object
 A discussion on An important topic was held by us.

Oct: 22. Changing noun forms to verb forms.

 2. The object is a clause.
Passive not used if
 a. It is an interrogative sentence.
 b. Questions sound awkward in passive voice.
 Eg: By whom were you taught English?
Passive Voice
 Used when a) The agent of the action is unknown
 irrelevant or implied.
 Eg:- The thief has been arrested.
 b. The action or the receiver of the action
 is more important than the doer or when
 not wished to emphasize the subject of
 the sentence.
 Eg: Smoking is prohibited.
 c) When wanted to make sentence softer &
 less hostile. Eg: This bill has not been paid
 d) To avoid taking the blame.
 A mistake was made. (instead of)

eg. We made a mistake.

To change active voice sentence into a passive voice.

eg:- The Science ^{subject} teacher conducted the experiment ^{object} Active Voice.

The experiment was conducted by the Science teacher.

Rules:-

- ① Make the object of the active voice sentence the subject (Nominative case) of the passive voice sentence.
- ② Replace the active verb with a matching passive one.
- ③ Use the preposition 'by' before the agent.
- ④ Make the subject of the active voice the object of the preposition 'by' the passive voice.

Semester - III Topic: Real Analysis

Unit - I: -

Sequences; Limits of sequences - A discussion about proofs -
limit theorems for sequences - monotone sequences and Cauchy sequences

Unit - II: -

Subsequences - Lim sup's and Lim inf's - Series - Alternating series
and Integral tests.

Unit - III: -

sequences and series of functions; Power series - Uniform convergence -
More on uniform convergence - Differentiation and Integration of
power series (theorems in this section without proofs)

Unit - IV: -

Integration: - The Riemann Integral - properties of Riemann integral - Fundamental
calculus

DEPARTMENT OF POLITICAL SCIENCE

The objective of remedial classes are to give additional help to pupils who, for one reason or another have fallen behind the rest of the class in the subject of Political Science.

Students with learning difficulties have the same Psychological needs and characteristics as other children. Some of them, may be less able to organise their Perceptions or to comprehend abstract ideas and concepts. Some may have poor memory, poor level of attention. Above all, owing to encounters of failure they tend to have low expectations of themselves and, having rarely distinguished themselves at college, also have low aspirations.

As teacher, we understood thoroughly the Strengths and Weaknesses of the listed pupils and appropriate teaching approaches have been adopted. Although these pupils are low academic achievers, they are not necessarily limited in abilities or that their attainment will remain permanently low. With proper remedial help, the use of stimulating teaching strategies, and closer supervision and more individual attention, these pupils interest in learning is aroused and they would make better progress.

The ultimate aim of remedial teaching is to help pupils who have fallen behind to learn to the best of their ability and to bring them back into the main stream classes as far as possible.
