In our College we have Mentoring system where 30-40 students are placed under a mentor and being counselled from time to time. We have Library, Computer Lab, TSKC Lab, Departmental Library etc. to provide additional resources to the students.

The Curricular activities include Seminars, Projects and Assignments Dr.A.Ramulu, Department of Economics, Osmania University addressed the students about the Autonomous system, Examination pattern, Career opportunities, NSS, NCC, Sports, Various Clubs, TSKC and other activities conducted of the college

DEPARTMENT OF COMMERCE

Our college was established to train graduates in their respective branch/ department of study, have a holistic outlook towards life, and have a desire to work for national needs and beyond. The graduating student must have excellent knowledge and skills in the area of his study. However, he must also have broad understanding of society and relationships. Character needs to be nurtured as an essential quality by which he would understand and fulfill his responsibility as an accountant and management, a citizen and a human being. Besides the above, several meta-skills and underlying values are needed. There is a mad rush for engineering today, without the student determining for himself his interests and his goals. This is a major factor in the current state of demotivation that exists among UG students towards studies. The success of gaining admission into a desired institution but failure in getting the desired branch, with peer pressure generating its own problems, leads to a peer environment that is demotivating and corrosive. For some, the start of hostel life without close parental supervision at the same time, further worsens it with also a poor daily routine.

Resource Person: Dr.Nithyanand Sharma
